To Whom it May Concern

**Subject:** Globalstar ST100 (L2V-ST100) Class 2 Permissive Change Details

Globalstar is requesting a Class 2 Permissive change for the ST100 module (FCC ID: L2V-ST100). One of our customers – Recon Dynamics - is using the ST100 module in their new product called WACTag.

The ST100 is enclosed in the WACTag housing. A battery is also enclosed to provide power to the ST100. The WACTag is designed as an outdoor asset tracking device.

If there are any questions, please don't hesitate to contact us.

Yours sincerely,

A handwritten signature in blue ink that reads "Matt Kapral".

Name: Matthew Kapral

Title: Senior Quality Engineer
