

Specifications	SLIK	Operation	SLIK	Connection of Bluetooth remote	SLIK
<p>Remote control model: BT-2</p> <p>Chip model: YC1089X</p> <p>Size: L 38.5 x W 28 x H 11mm Weight: 6.5g (Within battery)</p> <p>Features: Support IOS11.4.1 and Android 5.1.1 or above</p> <p>Power supply: Built-in 3.0V/1632 button cell</p> <p>Bluetooth 4.2 BLE</p> <p>Bluetooth protocol: HCI</p> <p>Working voltage: 3.0V(button cell)</p> <p>Working current: keystroke current is 2.5mA, first stage sleep is 0.5mA(no operation), second stage sleep is 2uA</p> <p>Effective distance: remote control distance up to 10 meters</p> <p>ISM frequency band: 2402MHz-- 2480 MHz</p>		<p>On</p> <ol style="list-style-type: none"> 1.Put the button to “ON” 2.The Bluetooth remote will start the automatic pairing state after the machine is turned on <p>Off</p> <p>Put the button to “OFF”</p>		<p>Search name: BT-2</p> <p>When the indicator light is flashing, means the Bluetooth remote is being paired. Then you can search BT-2 on your phone. The indicator light is not flashing once the Bluetooth remote has connected your phone</p> <p>Shooting</p> <p>After the Bluetooth remote connected with the phone, to change your phone to “shooting” model, then press the shutter of remote is ok to take the photo.</p> <p> Attention: The Bluetooth of your phone must be open during working.</p>	

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
