The diagram shows a circular control interface with concentric rings. A hand is shown interacting with the interface, with a blue arrow pointing to a specific area. The interface includes various icons and labels, such as a microphone icon, a plus sign, a minus sign, and a '2s' label. The interface is divided into sections, with the top section showing a battery level indicator and the bottom section showing a '2s' label.

The diagram illustrates the Bluetooth pairing process between two devices, A and B. At the top, device A is shown on the left and device B on the right. Device B is represented by three person icons, indicating it is a multi-user device. A large Bluetooth symbol with a registered trademark symbol (®) is positioned between them. Below this, two panels show the physical interaction. In the left panel, two fingers are shown pressing the 'S' (Search) and '+' (Pair) buttons on a circular control panel. A blue arrow points down from the panel with the text '2s', indicating a 2-second press. A speech bubble icon is at the bottom right. In the right panel, a single finger is shown pressing the '-' (Cancel) button. A blue arrow points down from the panel with the text '2s', indicating a 2-second press. A speech bubble icon is at the bottom right.
