

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1

EUT Housing and Board View 2

Solder Board-Component View 1	 A photograph of a custom-shaped printed circuit board (PCB) with various electronic components. The board is irregularly shaped with several rectangular cutouts. It features a large central area with a grid of small holes, likely for a microarray or sensor. Various components are visible, including a large black rectangular component, a smaller black component with a QR code, and several smaller electronic components. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements from 0 to 50 mm. A horizontal ruler is placed below the board, showing measurements from 0 to 70 mm.
Solder Board-Component View 2	 A photograph of the same custom-shaped PCB from a different perspective. This view shows the underside of the board, revealing the solder joints and the components mounted on the reverse side. The board is placed on the same blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements from 0 to 50 mm. A horizontal ruler is placed below the board, showing measurements from 0 to 70 mm.

Solder Board-Component View 3	 A photograph of a complex printed circuit board (PCB) assembly, likely a mobile device motherboard, showing various components such as chips, capacitors, and connectors. The board is positioned next to a metric ruler for scale, with markings visible from 0 to 70 mm. The background is a blue textured surface.
Solder Board-Component View 4	 A photograph of the same PCB assembly from a different perspective, showing the underside or a different section of the board. It features various electronic components and solder joints. A metric ruler is placed below the board for scale, with markings from 0 to 70 mm. The background is a blue textured surface.
