# **FCC Warning Statement**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no energy and, it not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

- measures:
  -- Reorient or relocate the receiving antenna.
  -- Increase the separation between the equipment and receiver.
  -- Connect the equipment into an outlet on a circuit different from that to
- -- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference.

(2)This device must accept any interference received, including interference that may cause undesired operation.

Name of product	Input	
Magnetic 3in1 foldable wireless charger	DC5V-3A 9V-3A	
Product size	Output (Mobilephone)	
96mm*65mm*30mm	5W/7.5W/10W/15W(Max)	
Conversion efficiency	Output (Charging box of earphone)	
Slow charge≥70% Fast charge≥75%	5W(Max)	

Working frequency Output (Watch) 110-205KHz 326.5KHz 2.5W

Material ABS+PC

Effective distance for wireless charging (mobile phone)

# Cautions

Please check whether your mobile phone supports wireless charging. This product supports fast wireless charging and realizes short-distance wireless power transmission through coil induction.

### Adapter choices

When using a SV/2A output adapter, the wireless charger supports a SW load. When using an adapter that meets the QC3.0 standard, the wireless charger

\*To ensure the normal use of the charger, it is recommended to use PD  $\,$  fast charging or adapters that meet the QC3.0 standard

Do not put metal debris or magnetic cards on the charging board, as it may cause the charger to heat up! Foreign objects should be removed when

an alarm is triggered!
Slight heating is a normal phenomenon,
as the phone battery may generate heat during charging!
Do not place the charger near a fire source or corrosive environment!
