COMMENTS (Internal reference only)
File created by Ahri

- Please include this manual in all packaging
for MI-E001T-series

- Greyscale

- Double sided printing

- Put the manual in the charging case

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Charging Case Diagram

1 Charging Zipper Case
2 Charge-Out
3 Power Button
4 Charge-In Port
5 LED Charging Case Indicator

Charge It

- Plug the cable into the port on the bottom of each earbud.
- To recharge the charging case, connect the other end of the cable to either a computer USB port or to a USB-compatible charger.
- When charging, the LED indicator will glow red.
- Charging time is approximately 1-2 hours. When complete, the LED light will be in red.

Pair & Connect with a New Device

- With the earbuds powered off, press & hold the power button on the earbud for 3-4 seconds until the LED light flashes red & blue.
- NOTE: If your earbuds are already turned on, you must first power off the earbuds before completing the above step.**
- On your Bluetooth®-enabled smartphone, tablet, or media player, navigate to the Bluetooth settings menu to turn on the Bluetooth® feature and search for new devices.
- After a few seconds you will see "MERKURY E001T" listed.
- Tap this model to select it. The LED will begin to slowly blink blue, and the earbud will emit a tone to indicate that it has been successfully paired with your device.
- Press & hold the power button on the left earbud for 2-3 seconds. The earbud will power on and automatically connect to the right earbud.
- NOTE: If your device asks for a password to connect to the earbuds, enter "0000."**

Power On & Off/Reconnect to Bluetooth®

- You only need to pair your Bluetooth® device with the earbuds once.
- With your previously paired device's Bluetooth® turned on and in range, press & hold the power button on the earbuds for 2-3 seconds.
- The earbuds will power on, a blue LED light will flash, and will automatically reconnect to the last Bluetooth® device they were connected to.
- To turn the earbuds off, press & hold the power button again for about 4 seconds, The LED light will flash red, and the earbuds will emit a descending tone to indicate that the earbuds are now powering off.
- If you have a previously paired device that does not auto-reconnect, navigate to the Bluetooth® settings menu on your device, turn on the Bluetooth® feature, and select "MERKURY E001T" from your list of paired Bluetooth® devices.

Play

- Connect your device to the earbuds via Bluetooth® (see "Pair & Connect with a New Device.")
- Open your favorite music app and press play.
- Control the music tracks and volume from your device or from the on-ear controls on the earbuds. Press the power button once to play/pause music & answer calls.
- Press the "+" or "-" button to raise/lower the volume on the earbuds.
- Press & hold the volume button to change tracks.
- All audio, including music, games, videos, and notifications will be routed through the earbuds.

- 1) Press & hold the power button for 6-10 seconds until the LED light flashes red & blue
- 2) On your smartphone open Bluetooth settings & search for new devices.
- 3) When you see "MERKURY E001T" listed, tap it.
- 4) The LED will begin to slowly blink blue. Your right earbud is connected!

Left earbud:

- 1) Press & hold the power button for 2-3 seconds until the LED light flashes blue.
- 2) The left earbud will automatically connect. Enjoy!

Note: If you device asks for a passcode to connect, enter "0000."

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions :

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Troubleshooting

No power	Recharge your earbuds using the included micro USB cable. Try using a different micro USB cable.
Music is not playing over Bluetooth	Make sure your Bluetooth® device has A2DP profile. Check if both devices are paired and connected over Bluetooth®, Restart the earbuds to reconnect your Bluetooth® device.
Bluetooth® device will not reconnect with the earbuds	Navigate to your Bluetooth® settings menu on your Bluetooth device, tap "MERKURY E001T," and select "Forget." Now follow the steps to pair your device again.

Specifications:
Frequency Response: 20Hz to 20KHz
