

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board. The housing is a white plastic component on the right. The board is a green printed circuit board (PCB) on the left, featuring various electronic components and a black connector. Two rulers are placed for scale: a vertical one on the left and a horizontal one at the bottom. The background is a blue textured surface.
Solder Board-Component View 1	 A photograph showing the solder board-component view. The board is a green PCB with a white connector and a black component. Two rulers are placed for scale: a vertical one on the left and a horizontal one at the bottom. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'D0157GAR-MOTOR' and '2021.6.28 V1.0', positioned next to a metric ruler. The ruler shows the component is approximately 4.5 cm long and 1.5 cm wide. The component features a USB-A connector, a micro-USB connector, and several surface-mounted components including a microcontroller, capacitors, and resistors.
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'D0157GAR-MOTOR' and '2021.6.28 V1.0', positioned next to a metric ruler. The ruler shows the component is approximately 4.5 cm long and 1.5 cm wide. The component features two large electrolytic capacitors (labeled '100 35V RVT' and '47 35V RVT'), a microcontroller, and other surface-mounted components. It has two multi-pin connectors on the top edge.

Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component, labeled "DD1570AR-MOTOR" and "2021.6.28 V1.0". The component is positioned next to a vertical ruler on the left and a horizontal ruler at the bottom, both marked in millimeters and centimeters. The background is a blue textured surface.
Solder Board-Component View 5	 A photograph of a larger green printed circuit board (PCB) component, labeled "DD1570AR-MCU" and "2021.6.28 V1.0". The component is positioned next to a vertical ruler on the left and a horizontal ruler at the bottom, both marked in millimeters and centimeters. The background is a blue textured surface.

Solder Board-Component View 6	 A photograph showing the solder side of a green printed circuit board (PCB) component. The component is placed on a blue textured surface next to a metal ruler. The ruler has markings in millimeters (0.5 mm, 1 mm) and centimeters (1 to 9). The PCB features various solder joints, pads, and a small rectangular component near the top.
Antenna View	 A photograph showing the antenna side of the same green PCB component. The component is placed on a blue textured surface next to a metal ruler. The ruler has markings in millimeters (0.5 mm, 1 mm) and centimeters (1 to 9). A red box highlights a specific component on the PCB, with a red line pointing to it from a label that reads "433.92MHz Antenna". The PCB also has various other components, including a small black component labeled "WQED S432" and a white component labeled "303".
