

Vitafit Smart Body Fat Scale

•Thank you for choosing Vitafit Smart body fat Scale. This scale is your personal health assistant. It uses bio-electrical impedance analysis(BIA) technology to offer you the data you need to keep track of your personal health; BMI(Body Mass Index), Body Fat, Body Water, Muscle Mass, Bone Mass, Protein, and much more!
We sincerely hope that you enjoy using your new Vitafit scale.

Safety Cautions

1. This scale is not intended for commercial use.
- 2.This scale should not be used to diagnose or treat any medical condition. Consult your primary care physician before making changes to your diet, exercise plans, or physical activities.
3. If you are pregnant, have a pacemaker, or other internal device, **you should not use the body fat function of this smart scale.** Please note that all data should be used as a reference and is not substitute for medical advice from a licensed healthcare professional.
4. Check the scale before use. Do not use the scale if it is damaged in any way.
5. The glass platform is slippery when wet. Make sure the platform and your feet are dry before stepping on for measurement.

Use and Care

1. To weigh safely and accurately, stand with your feet shoulder-width apart while on the scale.
2. DO NOT strike or drop the scale.
3. DO NOT stand on the edge of the scale or jump on it.
4. DO NOT stand on the scale platform for a prolonged period of time or when not in operation.
5. DO NOT store or operate near heat sources or in humid environments.
6. Handle the scale with care, as it is a precision instrument.
7. Clean the scale with a clean and dry cloth. Avoid getting water or any other liquid inside the scale.
8. DO NOT use chemical or abrasive cleaning agents to clean the scale.
9. Keep the scale in a cool and dry environment.
10. Always keep the scale in a horizontal position, do not store vertically.
11. If the scale fails to turn on, check whether the batteries are installed correctly. Replace the batteries if necessary.
12. If an error appears on the display or if the scale does not turn off automatically, remove the batteries for over 30 seconds, then reinstall them.
13. DO NOT overload the scale (maximum weight capacity: **180 kg / 440 lb/28st**).
14. DO NOT mix new and used batteries or different battery brands to power the scale.

Operation

Weighing without Vitafit App

1. Remove the isolator tab from the battery compartment.
2. For best accuracy, place the scale on a hard and flat floor. Carpeted or uneven floors can negatively effect the accuracy .
3. The scale operates with step-on technology but needs to be calibrated automatically under following occasions.
 - A. when first time use, moving the scale or battery exchange, the scale will display scale itself weight, and appear "CAL" after around 1second. and then displav "0.0" or "0.00" after around 2seconds , now it's ready to step on to weigh normally.

- B. If step on the scale before calibration, the scale will display an wrong weight and appear "CAL" after around 1second, and then display "0.0" or "0.00" after around 2seconds.

After calibration. please step again on to weigh and get correct weight.

4. Under other occasions, please step on to weigh directly.
5. When weighing, please remain standing evenly on the scale without shifting feet or body to get stable and right weight.
6. Step off the scale, the weight readings remain for several seconds. Then the scale will turn off automatically.
7. When Weighing without App, switch the unit by press the unit button on the backside of scale.

Weighing with Vitafit App

The Vitafit Bluetooth Scale can connect with your mobile phone or Ipad via Bluetooth . The Body Weight and BMI data will be showed at the App named “Vitafit”, which is easy to download from IOS App Store or Google Play.

Download App and Register ID

Scan the QR code or
Download “ Vitafit” via
IOS App Store or Google
Play.

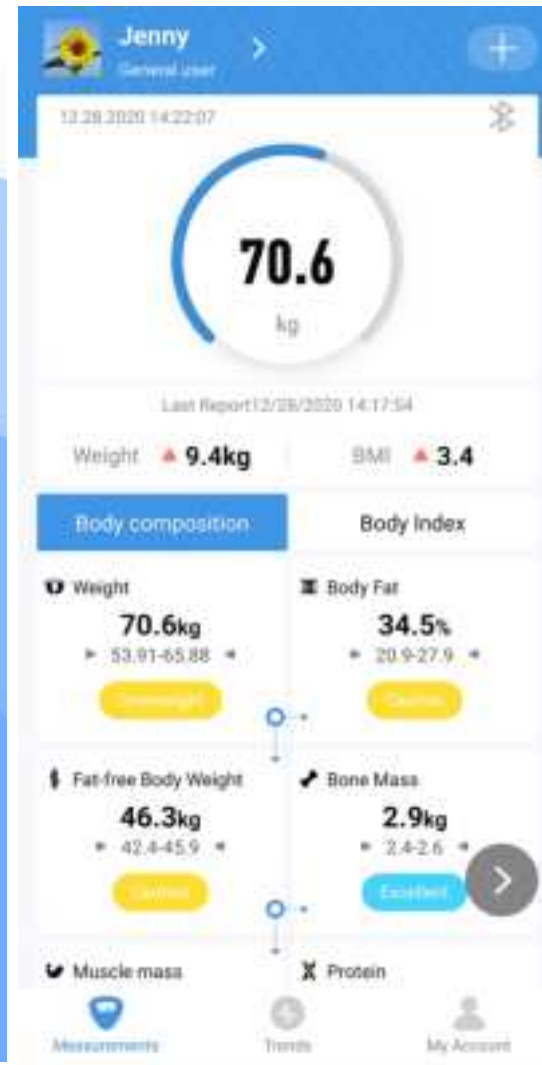

Register Your own ID,
Then add personal data and confirm OK.

Note: When weighing with Vitafit App,
please switch the unit via App, the scale
will keep same unit with App. Let's make
more clear, the unit button on the backside
of scale will be nonfunctional when the
scale connected to Vitafit App.

Pairing the Vitafit Scale with your smartphone

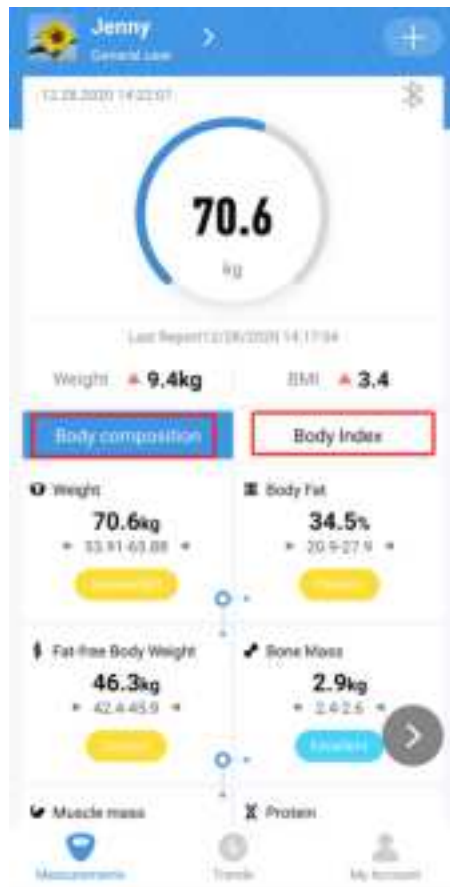

1. Turn on Bluetooth® on your smartphone.
NOTE: For Android users, Location and Bluetooth® must be turned on for Android 6.0 and later.
2. Tap + on the measuring page to discover the scale.

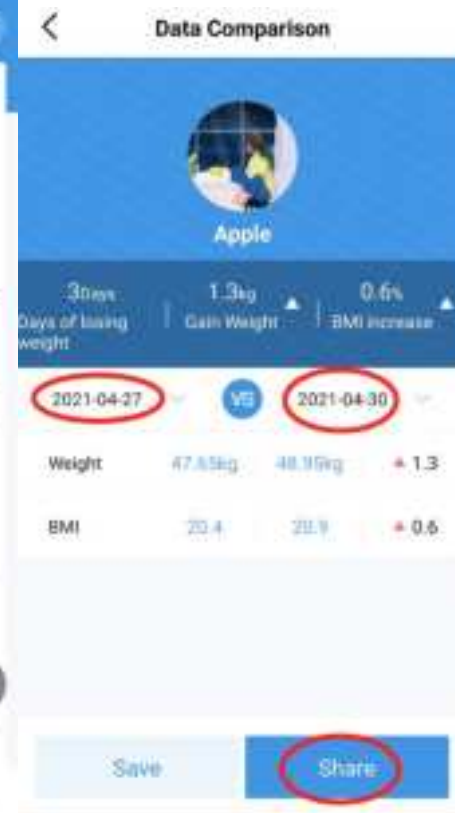

3. Step onto the scale, then add the device named "Vitafit Body Weight".
4. Keep standing on the scale for 5-10 seconds. Pairing is successful when your final weight and **body fat result** appears on the Vitafit app.

Changes or Modifications not expressly approved by the party responsible could void the user's authority to operate this device.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

This device complies with Industry Canada Licence-exempt RSSs. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
