Bluetooth version	V5.4
Bluetooth protocol	HSP/ HFP/ A2DP/ AVRCP
Bluetooth frequency response	2.402GHZ~2.480GHZ
Driver unit	40mm
Impedance	32Ω
Frequency response of driver unit	20HZ-20KHZ
Working distance	10M
Charger	DC 5V/500mA charger
Charging time	About 2.5H
Battery capacity	3.7V, 250mA
Working time of headphone	19h
Sensitivity of headphone	94dB±3Db
Noise Reduction	20j±3DB

The actual battery life will be affected by the volume, sound source, environmental interference, product functions and usage habits; please refer to the actual usage.

Disposal of electrical waste

This product with the above mark shall not be treated together with other household wastes at

the end of its service life. In order to prevent possible damage to the environment or personal health due to uncontrolled waste treatment, please recycle this product responsibly, so as to promote sustainable reuse of material

resources. Please contact the seller or relevant local authorities to know the laws and regulations on environmental protection and recycling of household electronic products for appropriate recycling. This product should not be mixed with other Commercial wastes.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
