HOSPITALITY LCD TV Owner's Manual

LC-26IU11/LC-32IU11

Please read this manual carefully before operating your set. Retain it for future reference.

See the label attached on the back cover and quote this information to your dealer when you require service.

WARNING:

TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK). NO USER SERVICE-ABLE PARTS INSIDE. REFER TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING:

TO PREVENT FIRE OR SHOCK HAZARDS, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

NOTE TO CABLE/TV INSTALLER:

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.

REGULATORY INFORMATION

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Important Safety Instructions

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug.
 A polarized plug has two blades with one wider than the other.
 A grounding type plug has two blades and a third grounding prong.
 The wide blade or the third prong are provided for your safety.
 If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer.
- 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14) R efer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Minimum distances(e.g. 10cm) around the apparatus for sufficient ventilation

"WARNING – To reduce the risk of fire or electric shock, do not expose the apparatus to rain or moisture."

"The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus."

Connecting to an Inside Antenna Setup

- Typical wall antenna jack used in apartment buildings, connect the antenna cable as shown below. (Use the correct type of antenna cable for the type of wall antenna jack.)

Turn clockwise to tighten.

Apartment Buildings

- If you have a 75 round cable, insert the bronze wire and then tighten the connection nut. If you have a 300 flat wire, connect the twisted wire to the antenna converter and then connect the converter to the antenna jack on the TV.
- If using 75 round cable, do not bend the bronze wire. It may cause poor picture quality.

Connecting to an Outdoor Antenna Setup

- This type of antenna is commonly used in single family dwellings.

0 EN nection 0 External equip

VCR Setup

 In Video mode, TV automatically reverts to TV mode if the CH ▲ / ▼ button or number buttons are pressed.

Connection 1

Set VCR switch to 3 or 4 and then tune TV to the same channel number.

Connection 2

- 1. Connect the audio/video output jacks on VCR to the corresponding input jacks on the TV. When connecting the TV to a VCR, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).
- 2. Insert a video tape into the VCR and press PLAY on the VCR. (Refer to the VCR owner's manual.)
- 3. Use the **INPUT SELECT** button on the remote control to select **AV1** or **AV2**. (If connected to S-VIDEO on side panel, select the **S-Video** external input source.)

Cable TV Setup

- After subscribing to a local cable TV service and installing a converter, you can watch cable TV programming.
- For further cable TV information, contact a local cable service provider.

Connection 1

- 1. Select 3 or 4 with channel switch on cable box.
- 2. Tune the TV channel to the same selected output channel of cable box.
- 3. Select channels at the cable box or with the cable box remote control.

Connection 2

- 1. Connect the audio/video output jacks on Cable Box to the corresponding input jacks on the TV. When connecting the TV to Cable Box, match the jack colors
- (Video = yellow, Audio Left = white, and Audio Right = red).
- Use the INPUT SELECT button on the remote control to select AV1 or AV2.
- 3. Select channels with the cable box remote control.

External A/V Source Setup

Connections

Connect the audio/video output jacks on the external A/V equipment to the corresponding input jacks on the TV. When connecting the TV to external A/V equipment, match the jack colors (Video = yellow, Audio Left = white, and Audio Right = red).

Viewing Setup

- 1. Turn on the external A/V equipment.
- 2. Use the **INPUT SELECT** button on the remote control to select **AV1** or **AV2**.
- 3. Operate the corresponding external equipment. Refer to external equipment operating guide.

DVD Setup

Connections

Connect the DVD video outputs to the COMPONENT (Y, PB, PR) jacks and connect the DVD audio outputs to the AUDIO jacks.

Viewing Setup

- 1. Turn on the DVD player, insert a DVD.
- 2. Use the **INPUT SELECT** button on the remote control to select **COMPONENT**.
- 3. Refer to the DVD player's manual for operating instructions.

Component Input ports

To get better picture quality, connect a DVD player to the component input ports as shown below.

| Component ports of the TV | Y | Рв | PR |
|-------------------------------------|------------------|-----------------------|-----------------------|
| Video output ports of DVD player | Y Y Y Y | Pb B-Y Cb PB | Pr R-Y Cr PR |

lent on EN nection 0 External equip

DTV Setup

- To watch digitally broadcast programs, purchase and connect a digital set-top box.

Connections

Connect the digital set-top box video outputs to the COMPONENT (Y, P_B, P_R) jacks and connect the digital set-top box audio outputs to the AUDIO jacks.

Viewing Setup

- 1. Turn on the digital set-top box. (Refer to the owner's manual for the digital set-top box.)
- 2. Use the **INPUT SELECT** button on the remote control to select **COMPONENT**.

PC (DTV) Setup

Connect the signal cable from the monitor output socket of the PER-SONAL COMPUTER to the **RGB INPUT** socket of the set.

Connect the audio cable from the PC to the **AUDIO INPUT** sockets of the set.

Press the INPUT SELECT button to select PC-RGB.

Switch on the PC, and the PC screen appears on the set.

The set can be operated as the PC monitor.

RGB-DTV input signal : 480p-60Hz, 576p-50Hz, 720p-50Hz, 720p-60Hz, 1080i-50Hz, 1080i-60Hz.

Detection of "AUTO-RGB" can be operated properly only with RGB cable included.

External Speaker Output

Send the set's audio to external audio equipment (stereo system) via the external speaker output.

How to Connect

- Connect one end of a speaker cable to the TV external speaker output port.
- Connect the other end of the external speaker cable to external speaker input on the audio equipment.

HDMI (DTV)

Connect the signal cable from the monitor output socket of the PERSONAL COMPUTER to the **HDMI INPUT** socket of the set.

Connect the audio cable from the PC to the AUDIO INPUT sockets of the set.

Press the INPUT SELECT button to select HDMI.

Switch on the HDMI, and the HDMI screen appears on the set.

HDMI-DTV input signal : 480p-60Hz, 576p-50Hz, 720p-50Hz, 720p-60Hz, 1080i-50Hz, 1080i-60Hz.

HDMI Interface with HDCP Copy Protection enables all-digital rendering of video without the losses.

This TV SET can receive the High-Definition Multimedia Interface(HDMI) or Input of Digital Visual Interface(DVI).

Connecting Magi-Link

Once connected to MagiLink, LCD TV will automatically be changed to Hospitality mode.

When MagiLink is connected, the original LCD remote control will not operate the LCD TV.

The MagiLink interface allows external control of the LCD TV from any MagiLink compatible controller.

This controller enable Specific vendor system and services full control of the LCD TV functions, settings and operation, as will as several enhanced features available with those vendor systems.

(Please refer to the MagiLink manual for the details)

Memorizing the Channels with Auto

- For Auto to work, the programming source must be connected to the TV and the TV must be receiving programming signals either over-the-air or from a cable-type service provider.

Press the **MENU** button and then use \blacktriangle / \blacktriangledown button to select the Station menu.

Press the \blacktriangleright button and then use \blacktriangle / \blacktriangledown button to select **Auto.**

Press the ► button to begin the channel search.

• Wait for auto program to complete the channel search cycle before choosing a channel. The TV scans for over-the-air channels and then channels provided by a cable service.

NOTES

- When the channel search is complete, use the ▲ /▼ buttons to review the memorized channels.
- If you press the **MENU** button in Auto, the function will stop and only channels programming up to that time will remain.
- Auto function can memorize only the channels which are being received at that time.

Lock Menu Options

Parental Control can be used to block specific channels, ratings and other viewing sources.

The Parental Control Function (V-Chip) is used to block program viewing based on the ratings sent by the broadcast station. The default setting is to allow all programs to be viewed. Viewing can be blocked by the type of program and by the categories chosen to be blocked. It is also possible to block all program viewing for a time period. To use this function, the following must be set :

1. Ratings and categories to be blocked. 2. Set a password 3. Enable the lock

V-Chip rating and categories

Rating guidelines are provided by broadcast stations. Most television programs and television movies can be blocked by TV Rating and/or Individual Categories. Movies that have been shown at the theaters or direct-to-video movies use the Movie Rating System (MPAA) only.

For Movies previously shown in theaters :

Movie Ratings :

- Unblocked
- G and Above
 - : (general audience)
- PG and Above
 - : (parental guidance suggested)
- PG-13 and Above
 - : (13 years and older))
- NC-17 and Above
 - : (18 years and older)
- X : (adult)

If you set PG-13 and Above : G and PG movies will be available , PG-13, NC-17 and X will be blocked.

For Television programs including made-for-TV movies:

General TV Ratings:

- Unblocked
- TV-G and Above
 - : (general audience)
 - : (individual categories do not apply)
- TV-PG and Above
 - : (parental guidance suggested)
- TV-14 and Above
 - : (14 years and older)
- TV-MA
 - : (mature audience)

Children TV Ratings:

- Unblocked
- TV-Y and Above
 - : (youth) (individual content categories do not apply)
- TV-Y7
 - : (youth, 7 years and older)

Content Categories:

- Dialog sexual dialogue
 - : (applies to TV-PG and Above, TV-14, Unblocked)
- Language adult language
 - : (applies to TV-PG and Above, TV-14 and Above, TV-MA, Unblocked)
- Sex scenes sexual situations
 - : (applies to TV-PG and Above, TV-14 and Above, TV-MA, Unblocked)
- Violence
 - : (applies to TV-PG and Above, TV-14 and Above, TV-MA, Unblocked)
- F Violence fantasy violence
 - : (applies to TV-PG and Above, TV-14 and Above, TV-MA, Unblocked)

For Canadian English/French language rating system:

- Canadian English language rating system:
- C and Above
- : Children)
- C8+ and Above
- : (8 years and up)
- G and Above
 - : (General programming. Suitable for all audiences.)
- PG and Above

- : (Parental guidance suggested)
- 14+and Above
 - :(Viewers 14 years and older)
- 18+
 - : (Adult programming)
- Unblocked

• 8 ans+

• 13 ans+

• 16 ans+

• 18 ans+

Canadian French language rating system: • G

- (General)
 - (8 years and older)
- (13 years and older)
- (16 years and older)
 - (Adults only)
- Unblocked

■ Hospitality Menu

- PIP lets you view 2 different inputs (sources) on your monitor screen at the same time. One source will be large, and the other source will show a smaller inset image.
- PIP is not available in Lock On mode only.

Watching PIP

Press the **PIP** button to show the sub picture.

• Each press of **PIP** button changes the screen display as shown below.

PIP Audio Input

PIP mode - main and sub picture audio select.

Press the **MENU** button and then \blacktriangle / \blacktriangledown button to select the PIP menu.

Press the ▶ button and then ▲ / ▼ button to select Audio Input.

Press the \blacktriangleright button and then \blacktriangle / \blacktriangledown button to select **Main** or Sub.

Repeatedly press the MENU button to return to normal TV viewing.

| PIP | |

| Input | Sub |
| ARC | |
| Position | |
| Audio Input | |
| | |
| | |
| | |
| H | |
| ▲▼ <► OK MENU | |

Moving the PIP

Press the **PIP POSITION** button.

Press the **PIP POSITION** button repeatedly until desired position is achieved. The sub pictures move clockwise.

Swapping the PIP

Press the SWAP button to exchange the main and sub pictures.

Main Picture

Programme selection for sub picture

Press the PIP CH +/- button. The selected programme number is displayed just below the programme number of main picture.

Selecting a Input Signal Source for the PIP

Use the **PIP INPUT** button to select the input source for the sub picture.

Programme scan

This function enables you to search all the stored stations on 4 or 16 sub pictures and see your favorite station by exchanging the main and sub pictures.

Press the SCAN button repeatedly to select POP4/POP16.

The selected sub or main pictures search all the stored stations.

Press the **EXIT** button to switch off sub or main pictures.

This function works in the following mode : TV, AV1, AV2, S-VIDEO.

RGB Mode / HDMI Mode

Note:

- a. If the set is cold, there may be a small "flicker" when the set is switched on. This is normal, there is nothing wrong with the set.
- b. If possible, use the VESA 1,024x768@60Hz video mode to obtain the best image quality for your LCD monitor. If used to PC vertical frequency 85Hz, some noise can be seen when PIP is on. In this case, set the PC vertical frequency to 60Hz. The set has been pre-adjusted to the mode VESA 1,024x768@60Hz.
- c. Some dot defects may appear on the screen, like Red, Green or Blue spots. However, this will have no impact or effect on the monitor performance.
- d. Do not press the LCD screen with your finger for a long time as this may produce some temporary distortion effects on the screen.
- e. When the PC screen appears on the set, a message may appear on the screen, and the message will differ according to the Window system version (Win98, 2000). If a message appears click "Next" until the message finishes.
- f. If the message "**Out Of Range**" appears on the screen, adjust the PC as in the 'Displayable Monitor Specification' section.
