Dear Mr. Kuo,

Thank you for your email.

According to your comments, we've checked the original documents to compare two antennas (original and change) and found that we've submitted the changed antenna specification in the original application by our mistake.

So, the submitted antenna spec in this application (Class II Permissive change) is right.

We'd like to resubmit the original antenna spec as attached file.

As you can see the attached two antenna specs, there are almost same. (same company)

The only difference is antenna size and gain.

We are really sorry to bother you.

If you have any further questions or comments, please do not hesitate to contact us.

Best Regards,

KiSoo Kim - HCT
