Front View of the EUT

A black, rectangular audio interface unit, identified by the 'Control Lab' logo and 'MODEL 100' text on its front panel. The unit features several input and output ports: an XLR input, two RCA inputs (red and white), two BNC inputs (red and white), an Ethernet port, and a USB port. A metal cable management arm is attached to the top of the unit, extending upwards and then curving to the right. The unit is placed on a light-colored surface against a plain, light-colored wall.
