

FCC Disclaimer: This device Complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1- This device may not cause harmful interference, and 2- This device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off	and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help or assistance. This device complies with Part 15 of the FCC Rules and Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions: 1- This device may not cause harmful interference, and 2- This device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for	the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication. Electronic and electrical devices disposal This symbol indicates that electrical and electronic device is to be collected separately.  • This product is designated for separate collection at an appropriate collection point. Do not dispose of as household waste. • If the device use batteries, they must be removed from the device and disposed in an appropriate collection center. • If the batteries cannot be removed, do not attempt to do it yourself since it must be done by a qualified professional. • Separate collection and recycling help conserve natural resources and prevent negative consequences for human health and the environment that might result from incorrect disposal.	PARAMETERS Bluetooth version: v5.1 Bluetooth range: Up to 30 ft (10 m) Frequency range: 2402-2480MHz Battery capacity: 30 mAh each Speaker driver: 10 mm 32 Ω Speaker sensitivity: 105 dB $\pm$ 3 dB Total playtime*: 3 hours (12 hrs total with case) Total standby time: 80 hours Waterproof rating: IPX4 CHARGING CASE Battery capacity: 250 mAh Charging time: 2 hours Micro USB charging *depends on individual use The device has been evaluated to meet general IEC exposure requirements. The device can be used in your radio signature conditions without restriction.	   TWS Earbuds IPX4 Splash Proof
