Re: Programming Capability

Dear FCC Representative;

Reference part 90.203(e), frequency programming capability.

The end user will not be able to program the channel frequencies. A service shop or authorized agent using a special programming cable and computer software can program the allowed TX/RX frequencies. The end user can only select from the preprogrammed channels using the channel select knob. The software and programming cable are not available to the end user.

Sincerely,

David Hattey President and General Manager E.F. Johnson Co.
