

## MODEL DECLARATION LETTER

To whomsoever it may concern

Sub: Model declaration of UbiqVue™ 2A Wireless Patient Monitoring System.

Product Name: UbiqVue™ 2A Wireless Patient Monitoring System  
Model Number: UX2550

This is to notify that UbiqVue™ 2A Wearable Biosensor (UB2550) is a component of UbiqVue™ 2A Wireless Patient Monitoring System (UX2550)

*Note: UbiqVue™ 2A Wearable Biosensor (UB2550) is a hardware component of the system that acquires & pre-processes two channels of ECG signals, TTI respiration signals, PPG waveform, ambient temperature, Thermistor data (based on Skin temperature), accelerometer data, SpO2 and pulse rate data and transmits to Single Patient Relay (SPR) or Multi Patient Relay (MPR) device. While UbiqVue™ 2A Wireless Patient Monitoring System (UX2550), receives multiple Biosensor data and further processes to derive Heart Rate, Respiration Rate, Skin temperature, Body temperature, HRV & R-R interval.*
