# FCC WARNING:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including

### interference that may cause undesired operation. FCC RADIATION EXPOSURE STATEMENT:

This equipment complies with FCC radiation exposure

#### limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your

body. This transmitter must not be co-located or operating in conjunction with any other antenna or Note: This equipment has been tested and found to

comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in

interference to radio communications. However, there is

no augrantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the nterference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. –Consult the dealer or an experienced radio/TV technician for help.
