主旨： 回信： SAR

Dear Mr. Andrew Leimer,

We have conducted additional tests by measuring the worst case of antenna direct contacted to the phantom. Please refer to page 25-32 of SAR test report for additional test modes and page 7-12 of test plot for system performance check and page 26-48 of test plot for the additional test modes' measured plot.

FYI: SAR test report and plot were uploaded to Correspondence.

Best regards,

Compliance Certification Services Inc.

林思廷 / Ting Lin

1) Tablet edge in contact with phantom may need SAR test if that represents some normal or expected use position, e.g., device has display orientations (0/180 portrait, 0/180 landscape) which allow regular contact with torso when cradled in forearm. Please submit SAR data for high-output channel if available and appropriate.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal pursuant to Section 2.917 (c) and forfeiture of the filing fee pursuant to section 1.1108.

DO NOT reply to this e-mail by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at www.fcc.gov, Electronic Filing, OET Equipment Authorization

Electronic Filing. If the response is submitted through Add Attachments, in order to expedite processing, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
