## About Windows Start Screen

You can use a keyboard & mouse or trackpad to navigate the windows start screen.

- Find Settings**  
Select the Start button , and then select the Settings icon .
- Shut down your computer**  
Select the Start button , select the Power icon , and then select Shut down.
- Display the Start menu**  
Select the Start button , in the lower-left corner of the taskbar.
- Search**  
In the taskbar search box, begin typing the name of an app, setting, file, or Internet topic.
- Switch between open apps**  
Select the Task view icon  in the taskbar.

 The features and appearance of the Windows screen vary, depending on the version of the operating system and additional software installed on your computer.

## But Wait ... There's More! About Q & A.

1. I cannot turn my device on.  
Press the power button for 3~5 seconds until the power light turns on; connect the provided charging adapter & power cable to the device and press the power button again.
2. My system is unresponsive.  
Press CTRL+ALT+DEL and open the task manager. Find the program that is unresponsive and end the task.
3. My laptop runs slow.  
Empty your Recycle Bin and periodically run an antivirus program.
4. My laptop gets hot.  
Use your device in a cooler area. Use an external fan if you intend to use the device for an extended period of time.
5. I cannot connect to my wifi or my wifi is slow.  
Use your device closer to your router. If this does not solve the issue restart your router.
6. I cannot connect to my bluetooth device.  
Turn off and on bluetooth then try to connect your bluetooth device again.
