FCC CFR 47 Part 15B

Data Port connection in relation to the following product:

FCC ID XX6SC2028W

ATTESTATION: I attest that the data port on the above product is used during the manufacturing process. It is also used during the initial configuration / programming of the product by the service provider (licensee) using a product specific software tool before the product is put into service, during this process the product is inoperable. The end user (operator) is unable to change transmitter frequencies, only the service provider (licensee), service technicians and maintenance personal have access to this software tool. In addition, there are no RF ports on this connector.

Sincerely,

Company Officer: Chris Beecham
