

FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON, D.C. 20554

GRANT OF EQUIPMENT AUTHORIZATION

Certification

Nokia Mobile Phones
Elektroniikkatie 10
Fin-90570
Oulu Finland

Date of Grant: 6/9/00

Application Dated: 2/9/00

Attention: Timo Huttunen, Vice President

NOT TRANSFERABLE

EQUIPMENT AUTHORIZATION is hereby issued to the named GRANTEE, and is VALID ONLY for the equipment identified hereon for use under the Commission's Rules and Regulations listed below.

FCC IDENTIFIER

LJPNSB-6NY

Name of Grantee

Nokia Mobile Phones

Equipment Class : Part 24 Licensed Portable transmitter held to ear

Notes: PSC Band GSM Cellular Transceiver

<u>Grant Notes</u>	<u>FCC Rule Parts</u>	<u>Frequency Range (MHz)</u>	<u>Output Watts</u>	<u>Frequency Tolerance</u>	<u>Emission Designator</u>
BC	24	1850 - 1910	1.2	0.1 PM	256KGXW

Output is EIRP. SAR compliance for body-worn operating configurations is limited to the two specific leather carrying cases tested for this filing. The leather carrying cases have been tested for SAR compliance only with the display and keypad of this device facing a user's body and with the antenna retracted. By design, these carrying cases have no provision for use with the antenna extended and must only support normal transmission for body-worn use under the tested operating configurations. End users must be informed of the body-worn operating requirements for satisfying RF exposure compliance.

The highest reported SAR values are - head: 0.94 W/kg, body-worn: 0.57 W/kg.

BC: The output power is continuously variable from the value listed in this entry to 5%-10% of the value listed.
