

NORTHWEST EMC, INC.

22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

February 15, 2005

Dear Application Examiner:

On behalf of Cardiac Pacemakers, Inc. (d.b.a. Guidant), Northwest EMC, Inc is submitting this application for the certification of Guidant's, Model 2936, FCC ID: ESCCRM293604. . The EUT is a hand-held, battery-powered product used to communicate with an implanted device. When it is held next to a patient's chest, it interrogates the patient's implanted heart failure device and sends the data, via a Bluetooth radio module, to a printer. It can be considered a portable transmitter per 47 CFR 2.1093(b). There is no provision for connection to the AC mains either directly, or indirectly from another device.

The Bluetooth radio utilizes a single integral PCB etch antenna. This configuration satisfies the requirements of 47 CFR 15.203.

The inductive loop radio used to interrogate the implanted device has been verified to FCC 15.201(a).

The Bluetooth radio module is supplied by Mitsumi and was previously certified under FCC ID: POOWML-C10XX. Any exhibits that reference "WML-C09", "WML-C09##", "BR-C09A", or "WML-C09AHR" are applicable to this application.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.247 as a DTS transmitter.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
