FCC Warning Statement

Foreign object detected

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must acceptany interference received, including interference that may cause undesired operation.

(Please use the adapter in the package

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.

-Increase the separation between the device and receiver. -Connect the device into an outlet on a circuit different from that to which the

receiver is device. -Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

Attention

1. Please keep the charger away from water or other liquid;

2.If you need to clean the charger, please make sure it is not connected power supply; 3.Using environment temperature remains 0-45°C.

4.Please use the adapter included in the package for better charging 5. Please use a mobile phone case with a thickness of less than 4MM. 6.If you are an iphone 12 Pro Max/13 Pro Max series mobile phone. Please do not use a mobile phone case larger than 2MM to achieve the best charging effect.

1.lf you're experiencing interrupted or slow charging, check the following: (1) The back of your phones hould not have any metal pop sockets, or credit cards. (2) Put the phone in the center of the charging surface (This lets the charging coilin your phone line up with the one inside the wireless charger). (3) The wireless charging coil on Sony phones is located slightly below center. (4) Phone casess hould be no thicker than 4 mm for effective charging. (5) Check whether the adapteris QC3.0 fast charger. 2.If you're failingto charge your device, please try out the following: (1) Please restartyour cell phone and test with other USB cable.

(2) Please check whether the indicator turns on or not. (3) Please check the Adapteris QC3.0 Quick Charger (Output:9V/2A) ornot, iPhone original adapter does not match the wireless charger. (4) Please checkyour Phone case thickness(<=4mm). Metalring or Magnetic Pad will not beavailable.

3.If you're using the recommended wireless chargerwith the QC3.0 Adapter and have removed any potentialcharging obstructions, but are still experiencing issues, try: (1) Replacing the cable connecting your wireless charger

(2) Rebootingyour phone.

(3) Unplugthe adapter and reinsert.

After-sales Service

if your problem has not been solved by following the above steps, please reach out to us via Amazon's message center or info@waitiee.com. In order to solve it for you faster, please have the following information at hand: your phone's model, the type of wall charger you are using, and the type ofphone case you are using (with a link if possible). Optionally, you may include a video to illustrate the problem you are having.
