WHAT'S IN THE BOX

CONNECT THE BABY MONITOR

Use only the power adapters supplied with this product.

Make sure the baby monitor is not connected to a switch-controlled electric outlet.

Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not

designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.

Make sure the parent unit, the baby units and the power adapter cords are out of reach of children.

The rechargeable battery in the parent unit is built-in

2

CONNECT THE BABY MONITOR (CONT'D)

Charge the parent unit battery When you have connected and turned on the parent unit, the battery will be charged automatically.

- Before using the baby monitor for the first time, charge the parent unit battery for 12 hours. When the parent unit battery is fully charged, the battery icon becomes solid ()
- It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging.
- The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery.

The hattery icon indicates the hattery status (see the following table)

The screen displays The battery has very little charge and may be used for only a short time.

Charge without interruption (about 30 minutes). The battery icon becomes The battery is fully charged. To keep the battery charged, connect it to AC power when not in use.

2 POWER ON OR OFF THE BABY MONITOR

POSITIONING THE BABY MONITOR

> 3ft (1m)

The default volume of your parent unit is level
4, and the maximum volume is level 7. If you
experience high-pitched screeching noise from
your baby monitor while positioning:

Make sure your baby unit and parent unit are
more than 3 feet (1 meter) apart, OR

PNOTE You can manually tilt the camera angle and down by pushing the lens portion upwards or downwards.

To avoid interference from other electronic devices, place your baby monitor at least 3 feet (1 meter) away from devices such as wireless router, place. cell phones and computers.

∜ TIP

Once you power on both your baby unit and parent unit, your parent unit displays image
