## Jabra Wireless Charging Pad

User Manual

Version 1.0.0.0

### User Manual

Read the charging kit  
The product is a Qi wireless charging pad. It is used to charge Qi wireless charging devices. It is not a power source. It is not a power source. It is not a power source.

### Specifications

Model: Jabra Wireless Charging Pad  
Power: 10W  
Input: 5V/2A  
Output: 5V/2A  
Charging speed: 10W  
Charging time: 1-2 hours  
Charging distance: 0-10mm

### 1. Connect to Power Adapter

1. Connect the power adapter to the back of the charging pad.  
2. Connect the power adapter to the back of the charging pad.  
3. Connect the power adapter to the back of the charging pad.  
4. Connect the power adapter to the back of the charging pad.  
5. Connect the power adapter to the back of the charging pad.

### 2. Connect to Laptop

2. Connect the power adapter to the back of the charging pad.  
3. Connect the power adapter to the back of the charging pad.  
4. Connect the power adapter to the back of the charging pad.  
5. Connect the power adapter to the back of the charging pad.

### 3. Connect to Desktop

3. Connect the power adapter to the back of the charging pad.  
4. Connect the power adapter to the back of the charging pad.  
5. Connect the power adapter to the back of the charging pad.

### 4. Charging Mode

4. Connect the power adapter to the back of the charging pad.  
5. Connect the power adapter to the back of the charging pad.  
6. Connect the power adapter to the back of the charging pad.

### Notes

1. Do not use the charging pad with a power adapter that is not certified by Qi.  
2. Do not use the charging pad with a power adapter that is not certified by Qi.  
3. Do not use the charging pad with a power adapter that is not certified by Qi.  
4. Do not use the charging pad with a power adapter that is not certified by Qi.  
5. Do not use the charging pad with a power adapter that is not certified by Qi.

### Second Edition

1. The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) The device may not cause harmful interference, and (2) The device must accept any interference received, including interference that may cause undesired operation.

Changes to this document are indicated by the revision number. The revision number is located on the back of the device. The revision number is located on the back of the device. The revision number is located on the back of the device.

- Restart or reduce the charging distance.
- Increase the separation distance to the equipment.
- Connect the equipment to a power source that is not certified by Qi.
- Connect the device to a power source that is not certified by Qi.
