Carrier frequency: 2.402GHz-2.480GHZ Bluetooth version: Blue

Bluetooth version: Bluetooth 5.4
Battery capacity: 1000mAh
Charging interface: Type-C

ontrol model: YK01

Product Name: Remote Control
Carrier frequency: 2.402GHz-2.480GHZ
Transmission distance: 10 meters
Transmission distance: approximately 1.5 hours

Transmission distance: approximately 1.5 hours

Product parameters

Transmission distance: 10 meters

remote control

Bluetooth version: Bluetooth 5.0 Battery capacity: 250mA Charging interface: Type-C

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: --Reorient or relocate the receiving antenna. --Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. --Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
This device complies with FCC RF radiation exposure limits set forth for an
uncontrolled environment. This transmitter must not be co-located or operating in
conjunction with any other antenna or transmitter. The device can operate in portable
condition without restrictions.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
