USB-C Cable/ USB-C Port Output: DC 5V/3A; 9V/2.22A; 12V/1.67A
Watch Output: 2.5W
Multi port output: DC 5V/3A
Lithium Ion battery - 5000mAh (18.5Wh)

The PureJuice Pocket Pro portable battery is pre-charged.

CAUTION:

DO NOT attempt to disassemble the portable battery charger. Keep this product in a dry and ventilated space. DO NOT place in direct heat or use in high humidity environments. To protect the battery from short circuits, do not place inside a drawer or enclosed space. If unused for a long period of time, the battery may require a few full charging cycles to work at maximum efficiency. This battery can only be charged using the provided cable.

To charge your PureJuice Pocket using a WALL/CAR CHARGER or COMPUTER:

Use the built in USB-C cable and plug into your existing wall charger, car charger or computer. The LED will display the percentage of battery remaining and the number will flash to indicate the battery is charging.

To charge your device:

Insert the USB-C connector port, charging will automatically begin and LED display will stay on showing the percentage of battery that is remaining . If the lights do not turn on, press the power button.
Place your Apple watch on the magnetic watch charger, press the power button to start charging. LED display will stay on showing the percentage of battery that is remaining.
(notes: the green lightning bolt icon on battery display means your device is currently using PD for fast charging)

Checking your current power level: The percentage displayed on the LED means how much battery is remaining on the PureJuice
