Modular Approval Request

FCC ID: 2APJE-SB

Host manufacturer:

STORZ & BICKEL GMBH & CO. KG, Germany

Host Model Name:

Volcano Hybrid

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.		No, strive for limited modular approval and decided therefore not to use a shielding.
b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes. Module have buffered modulation/data inputs	
c) The module must contain power supply regulation on the module.	Yes. The module has a separate power supply regulation.	
d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific	Yes. The antenna is implemented in the PCB layout.
