

# BLUETOOTH HANDSFREE CAR KIT

with noise cancellation technology

Model: BT10M

User Manual

## Brief Introduction

Thanks for choosing our Bluetooth FM Transmitter. This device streams music and call directly from your Bluetooth devices to your car FM stereo system. The separated microphone provides you with an amazing hands free function and it is also with a Micro SD card/USB Disk slot that lets you enjoy favorite MP3 and WMA tunes by your car's stereo system. Please read the user manual carefully before using. Hope this device makes your driving more interesting and safer.

## Packing contents:

- Bluetooth device
- User manual

- Hook and loop fastener

### **Specification:**

- Bluetooth version: Action V5.0
- Bluetooth protocol: AVRCP,HFP,A2DP
- Frequency range: 88.1-107.9MHZ
- Frequency stability:  $\pm 10$ ppm
- Product input:12-24V
- Charger output: 5V/1A +5V/2.4A
- Music format: MP3, WMA, WAV, FLAC
- Micro SD card (Max capacity): 64GB
- USB disk (Max capacity): 64GB
- Transmit Distance: about 3m
- Bluetooth Distance: about 5m
- Product size of FM transmitter: 43\*38\*76mm
- Product size of Microphone: 38\*20\*9mm
- Length of cable:60cm
- Product weight: 37.8g
- Material: ABS

### **Features:**

1. Wirelessly transmits phone call & audio streaming to the car FM stereo system via Bluetooth.
2. Switches to handsfree mode automatically from music streaming status when receiving phone call.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
