Question #1: Per section 2.925(a)(1) requirement, the term FCC ID: "shall be on a single line.." The proposed FCC ID label format does not comply this requirement. Please provide revised FCC ID label format.

Question #2: Page 78 of user manual indicates the user must maintain 20 cm separation distance which user will not be able to do so when this device is used with notebook computer. Please make necessary correction.

Best Regards

Mike Kuo
