FEDERAL COMMUNICATIONS COMMISSION

7435 Oakland Mills Road
Columbia, MD 21046
USA

Subject: Certification Application under FCC Part 15, Subpart C, Para. 15.247, Frequency Hopping Spread Spectrum Transmitters Operating in the Frequency Band 2402 - 2478 MHz.

Applicant: AEROCOMM INC.
Product: 2.4 GHz FHSS OEM Transceiver
Model: PKLR2400
FCC ID: KQL-PKLR2400

Dear Sir/Madam,

As appointed agent for **AEROCOMM INC.**, please find enclosed copies of the engineering report, application form and a cheque of US\$ 1075 for FCC certification and confidentiality filing fees.

This application is intended for certification on the modular radio. Therefore, radiated tests in this report will be performed in 2 configurations.

- (1) The radio was tested by itself without any casing.
- (2) The radio was enclosed inside a plastic case (a representative product sample).

Since the radio operates at very low RF power outputs, 10 mWatts peak max. or 39 mWatts EIRP max. We would like to apply for the exemption of the SAR test requirements.

If you have any queries, please do not hesitate to contact us by our TOLL FREE numbers:
