Solder Board-Component View 4	 A photograph of a small, rectangular blue printed circuit board (PCB) component. The component is positioned on a light blue textured surface. To the left of the component is a black L-shaped ruler with white markings. The vertical ruler scale ranges from 0 to 100 mm, and the horizontal ruler scale ranges from 0 to 100 mm. The component is located approximately at the 20 mm mark on the vertical scale and the 30 mm mark on the horizontal scale.
Solder Board-Component View 5	 A photograph of the same blue PCB component from a different angle. The component is positioned on the same light blue textured surface. A black L-shaped ruler with white markings is visible to the left. The vertical ruler scale ranges from 0 to 100 mm, and the horizontal ruler scale ranges from 0 to 100 mm. The component is located approximately at the 20 mm mark on the vertical scale and the 30 mm mark on the horizontal scale.

Solder Board-Component View 6	 A photograph of a small, rectangular blue printed circuit board (PCB) component. The component has a gold-colored rectangular area on its left side and a small, circular component on its right side. It is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned at approximately 10 mm on the horizontal axis and 10 mm on the vertical axis.
Solder Board-Component View 7	 A photograph of the same blue PCB component from a different angle. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned at approximately 10 mm on the horizontal axis and 10 mm on the vertical axis.

Solder Board-Component View 8	 A photograph of a small green printed circuit board (PCB) component, likely a Wi-Fi module, resting on a blue textured surface. The component features a central black chip, several gold-plated pins along its edges, and various surface components. It is positioned next to a black ruler with white markings in millimeters and centimeters for scale.
Antenna View	 WIFI 1 Antenna WIFI 0 Antenna A photograph showing two views of a device's internal components, specifically the antenna area, placed on a blue textured surface next to a black ruler. On the left is a blue PCB with a large silver antenna patch. On the right is a black plastic housing with two small rectangular antenna components. Red boxes highlight these components, with red lines pointing to labels: 'WIFI 1 Antenna' for the component on the left and 'WIFI 0 Antenna' for the component on the right.
