CONFIDENTIALITY REQUEST for Certification Service in USA

Federal Communication Commission Equipment Authorization Division, Application Processing Branch 7435 Oakland Mills Road Columbia, MD 21048

12 August 2016

TO WHOM IT MAY CONCERN

Pursuant to Paragraphs §0.457 and 0.459 of the Commission's Rules (47 C.F.R.) and Section §552(b)(4) of the Freedom of Information Act, we request confidentiality for the following products:

FCC ID 2AEAK8730L1-5

Model name

8730L1-5

For the product stated above, we request permanent confidentiality for exhibits which contain Operational Description, Block Diagram, Schematics, Parts Lists, Tune Up Information, or Internal Photos.

These items contain detailed system and equipment description and related information about the product which *Rosemount Aerospace Inc.* considers to be proprietary, confidential trade secrets and a custom design which otherwise would not be released to the general public. Furthermore, these items are only made available to a customer or partner under NDA. Since this design is a basis from which future technological products will evolve, *Rosemount Aerospace Inc.* feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Internal photos are requested to be held in permanent confidentiality. The circuit board and internal components are not accessible to users. Only certified personnel are allowed access to the device per CFR Title 14, Chapter I, Subchapter H, Part 145. These procedures restrict public access to the product. The certified personnel in *Rosemount Aerospace*'s repair station are the only persons granted access to the device, thus confidentiality of internal information is ensured. Internal photos would provide the market with proprietary construction and component information.

If you have any questions, please feel free to contact me at the address shown below.

Ryan Holla 12 Aug 2016

Sincerely,

Ryan Kollman Rosemount Aerospace, Inc. 14300 Judicial Road Burnsville, MN 55306 ryan.kollman@utas.utc.com 952.892.4406
