

MOULTRIE MOBILE FEED HUB™

BRINGING THE POWER AND CONVENIENCE OF CELLULAR TECHNOLOGY TO DEER FEEDERS

Feed Hub is the first-ever cellular feeder accessory that gives you complete control of your feeder, from anywhere.

WITH FEED HUB, POWERED BY THE MOULTRIE MOBILE APP, YOU CAN:

- See your remaining **feed level** and **battery levels**
- **Remotely** set and adjust feed times, days and settings
- Receive **notifications** when your battery or feed levels are low, or when a jam/clog is detected
- Dispense **feed on demand** – from anywhere

COMPATIBILITY

The Feed Hub Kit is a quick-lock kit that fits onto standard Moultrie feeders. The included adapter allows you to attach it to other barrels or buckets for a custom setup.

For more information, visit MoultrieMobile.com/feedhubfit

BEFORE YOU BEGIN

DOWNLOAD THE APP

Download the Moultrie Mobile app to set up and install Feed Hub, see remaining feed and battery levels, remotely set feed times, and dispense feed on demand.

An active Moultrie Mobile subscription is required to use Feed Hub.

Scan the QR code to see how to get started with Feed Hub.

CLIENT TO
CONFIRM IF CORRECT

INSTALLATION

1. Download the Moultrie Mobile App
2. Sign up for an account, or log in
3. Go to Devices > Activate
4. To activate, **scan the QR code on the Feed Hub Timer**
5. Select a plan
6. **Watch Installation Video** after selecting your Feeder
7. Follow the **step-by-step instructions in the app** to complete installation

AFTER INSTALLATION

Once installed, check the Moultrie Mobile app for the battery levels, remaining feed level, and signal. Make sure to turn the Feed Hub Timer ON.

YOU WILL NEED

MOULTRIE
MOBILE APP

EYE
PROTECTION

4 AA BATTERIES

6V MOTOR
BATTERY

ADDITIONAL TOOLS:

CUSTOM HOPPER

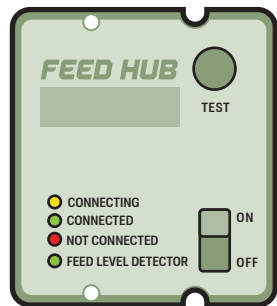

You will need a **Tape Measure** if you're using a custom feeder setup.

MOTOR BATTERY RECOMMENDATIONS

- Use a 6V, 5Ah Battery
- For best performance, use 6V Moultrie Rechargeable Battery

AA BATTERY RECOMMENDATIONS

- Use Moultrie or Energizer batteries
- Use alkaline or lithium AA batteries
- Do not use rechargeable AAs for the Feed Level Detector
- Do not mix battery brands and types
- Do not mix old and new batteries

TURN ON YOUR TIMER

Slide the power switch to **ON**. Timer will attempt to connect to the **Feed Level Detector** and then the Timer will attempt a **cellular connection**.

FEED LEVEL DETECTOR
Flashes green when attempting to connect.

FEED LEVEL DETECTOR
Turns solid green upon successful connection.

FEED LEVEL DETECTOR
Turns off after flashing if unsuccessful connection.

CONNECTING
Flashes yellow as the timer connects.

CONNECTED
Turns green upon successful connection.

NOT CONNECTED
Turns red if connection is not found.

PRESSING THE TEST BUTTON

After pressing the test button, Feed Level Detector LED will flash. **Step away at this time**. Spin plate will spin for **8 seconds**. Timer will then attempt Feed Level Detector and cellular connection.

MANAGE FEED HUB + SETTINGS

You can view your feeder levels and adjust settings remotely, at any time, using the Moultrie Mobile app.

Go to Devices to see current Feed Hub information. From Devices, tap on your Feed Hub to make changes:

- Adjust feed times
- Feed On Demand
- View a Health Check
- See device and plan details

ACCESSORIES

Power your feeder and eliminate visits to change out motor batteries with these external power accessories from Moultrie Mobile.

TROUBLESHOOTING

FEED HUB TIMER WON'T CONNECT

If the red NOT CONNECTED light is on:

- Make sure Feed Hub has an active subscription with Moultrie Mobile.
- Move the feeder to a location with a stronger signal.

WHY DOES MY CELL PHONE HAVE SIGNAL, BUT MY FEED HUB DOESN'T?

Cell phone providers use roaming to connect to other towers, so there may be signal differences between your cell phone and the device.

WHAT HAPPENS IF I CANCEL MY PLAN?

After installing Feed Hub, here's what to expect if you cancel your Moultrie Mobile plan:

- Your feeder will continue to run based on your most recent feeder times.
- You will not be able to view remaining feed or battery levels, update feed times, or dispense feed on demand in the app.
- You can upgrade or reactivate your plan any time.

FCC Statements

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

This device complies with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Changes and modifications not expressly approved by the party responsible could void the user's authority to operate this device. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
