

ZIDOO X7 SMART TV BOX

What's ZIDOO?

ZIDOO is a Professional Android STB Manufacturer, an advanced ARM multi-core industrial product and consumer electronics developer. Although only founded in 2014, our founders are highly experienced and seasoned in the OTT field and are committed to deliver expert professional technical services to a well-known brand at home and abroad.

We specialize in OTT, DVB and Streaming Players, providing Supply Chain Service and Solutions. We maintain good relationships through cooperation with Mstar, Rockchip, Allwinner, Amlogic, Realtek and other original chipset factories. We also provide numerous TV BOX Brands with exported technology. ZIDOO is a unique brand with vast strengths through technology and innovation. The ZIDOO brand is gradually being identified all over the world.

We have our own factory for production of our products and with the growing market demand, constantly update our equipment to meet increased orders. Our factory can supply the output 200,000 devices monthly. We work hard and make continuous efforts to strive for higher goals.

What is...

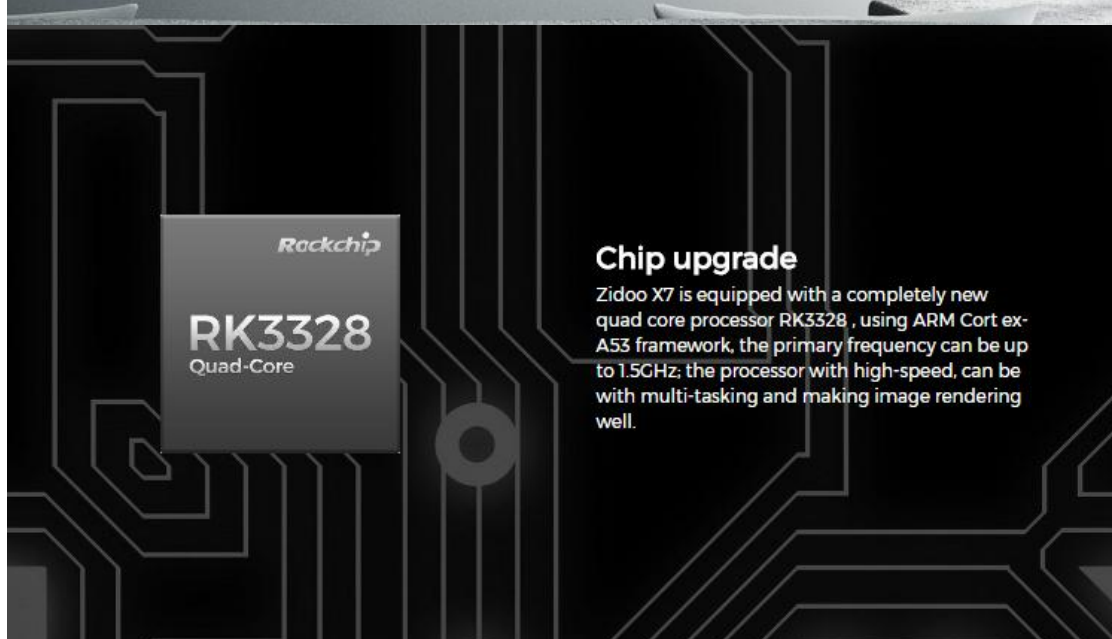

ZIDOO X7 SMART TV BOX

The New UI

With zidoo's custom user interface, applications and workflow have been simplified to make for an easy, but rich user experience making the most advanced operations a simple, easy operation allowing for greater user setup and operation speed.

Chip upgrade

Zidoo X7 is equipped with a completely new quad core processor RK3328, using ARM Cortex-A53 framework, the primary frequency can be up to 1.5GHz; the processor with high-speed, can be with multi-tasking and making image rendering well.

Rockchip
RK3328
Quad-Core

Android 7.1

The zidoo X7 is based on android 7.1, supporting applications such as GOOGLE PLAY, YouTube, Netflix, Skype and many more.

A great box with fantastic compatibilities to meet the most demanding entertainment expectations!

2GB
RAM

8GB
eMMC

2G+8G

2GB DDR3 RAM :
bigger games run smoothly

8GB eMMC Memory :
more secure and reliable

Enough Storage

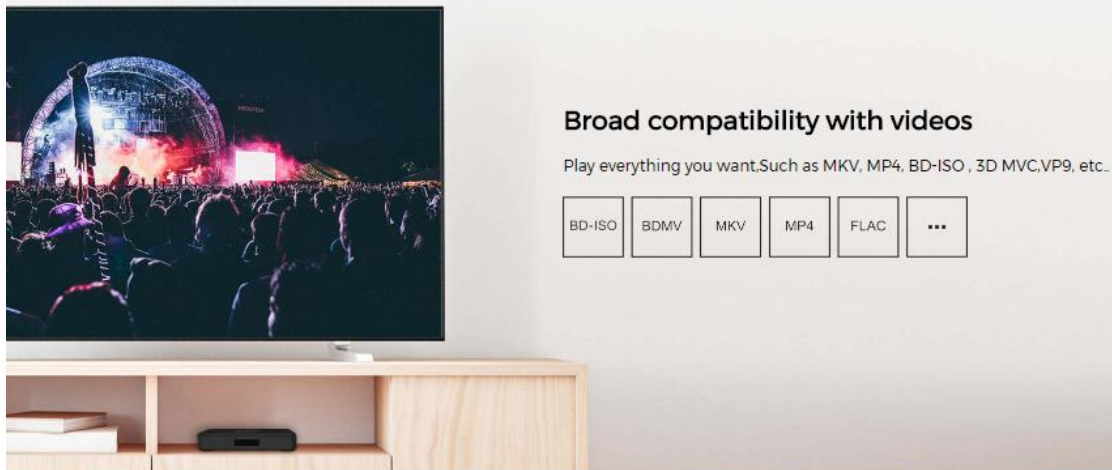

2.4G

5G

Dual Band WIFI

Zidoo X7 uses the Broadcom AP6255 dual-band WIFI which supports IEEE 802.11a/b/g/n, 802.11ac and 2.4GHz/5GHz. 802.11ac draft connected to the wireless LAN allows it to achieve speeds of up to 433.3 Mbps with single stream.

Speed-up

Bluetooth 4.1

Additionally, the Bluetooth 4.1 module allows connection to your Bluetooth speakers, Keyboard, Mouse and many more.

Broad compatibility with videos

Play everything you want. Such as MKV, MP4, BD-ISO, 3D MVC, VP9, etc..

Uncover the detail with 4K

Zidoo X7 supports decoding of 4K@60P HEVC(h.265)10bit. Images are sharpened and refined using Professional image processing technology picture processing which upscales and enhances every pixel for remarkable clarity.

HDR(High Dynamic Range)

Zidoo X7 supports HDR (high dynamic range) technology, with the help of this technology, the video image is more clearly visible, the nightscapes are much richer, more realistic shade with contrasts.

Enhanced Color by 10-bit

Zidoo X7 supports a wider spectrum (BT.2020) and 10-bit color, totaling 1.06 billion colors instead of the old 8-bit color technology to provide 16 million colors. Color reproduction is higher, more delicate quality.

HDMI 4K * 60fps

Zidoo X7 supports HDMI output with the resolution 4K*2K@60fps. And X7 also has UHD frame rate@60fps that can enjoy 18Gbps data transfer and 10-Bit real-color without any data loss.

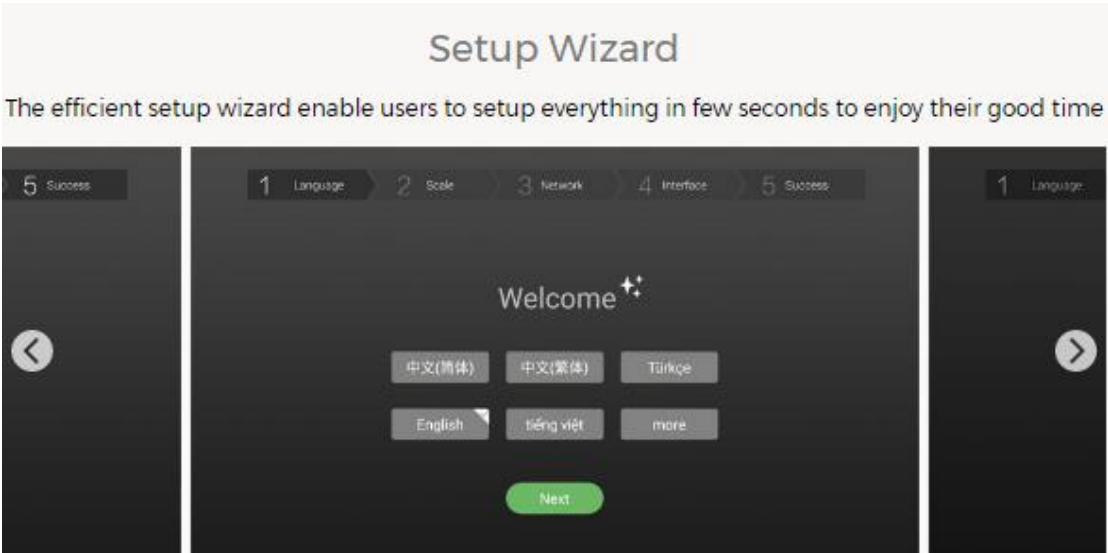

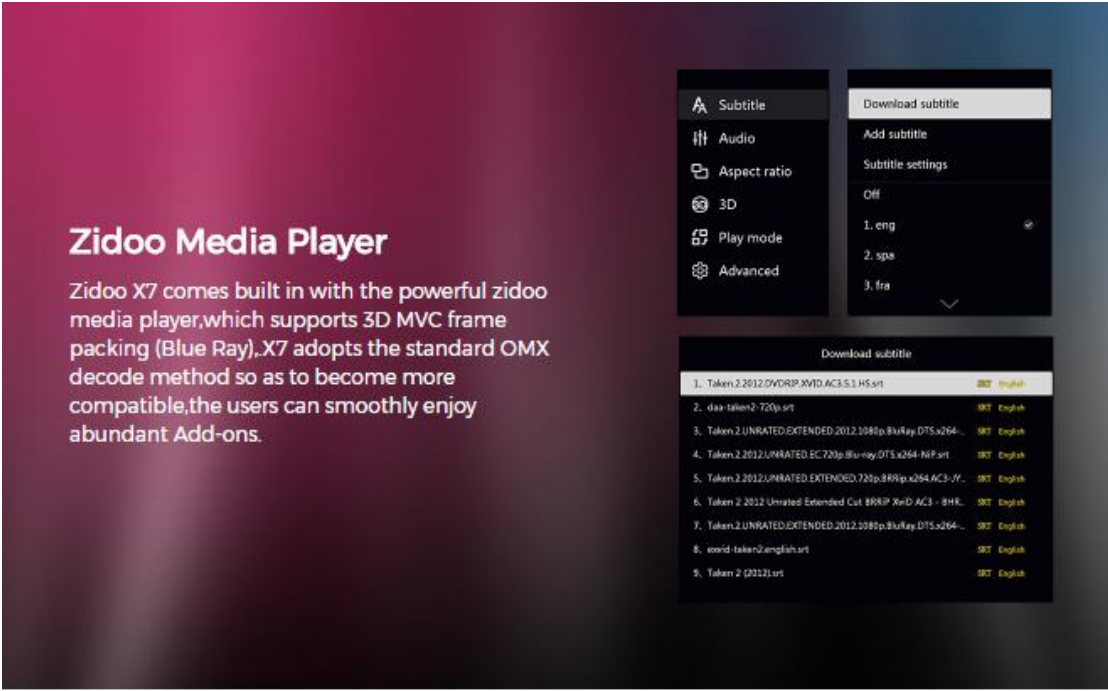

USB3.0

X7 equipped with USB 3.0 interface to provide you with a maximum transfer rate of 5Gbps, and fully compatible with USB2.0 devices, you can connect to all kind of USB storage devices and expand space

Sensitive remote control range

Zidoo X7 with a large area of the window design, the use of diamond-shaped array of light refraction principle, making X7 has excellent remote control range and distance.

Launcher

Users can intuitively manage their desktop, set shortcuts for Apps, customize the themes. They can also specify a startup App such as ZDMC for more convenient use.

Media Center

Media Center support SMB, NFS, etc, compatible with lots of file formats, and provide different viewing modes.

HOW TO SETUP THE SYSTEM?

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
