Troubleshooting

5

Earbuds do not sync with each other:

- 1. Place the earbuds in the case, then take out the earbuds, ensuring both earbuds are turned on.
- 2. On each earbud, press and hold the control surface for 5 seconds. The earbud will turn off after the LED flashes purple 3 times.
- 3. Replace the earbuds in the charging case.
- 4. Repeat the Getting Started process.

Earbuds do not pair to device:

- 1. Turn the Earbuds OFF by pressing the control surface on each earbud until the LED blinks red and then turns off.
- 2. Replace the earbuds in the case. Turn your device's Bluetooth® OFF and then back ON. Then repeat the pairing process.

Charging

- 1. Replace the earbuds in the case.
- 2. Connect the USB-C charging cable to the charging port on the bottom of the charge case
- 3. Plug the cable into a standard USB 5V/1A or higher power output.

When you plug the case into a charger, the LED display shows the current charge, blinking. This means it is being charged.

The lights on the buds in the case glow steady red, indicating they are charging.

The lights on the buds will go out when fully charged or the case is upplugged from the power source.

The LED display will show 100 and stop blinking when the case is fully charged.

4. When fully charged, promptly unplug the charge case from the power source.

If you want to charge the earbuds from the charge case internal battery, simply replace them in the case. They will begin charging from the built-in case battery.

Warnings

6 7

- Do not use this unit for anything other than its
- intended use. Do not puncture, throw, drop, bend, or modify this product.
- Do not throw this product into fire or water. • Do not short-curcuit the battery with any metal or
- metallic objects. • Do not expose this product to corrosive liquids
