Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is rectangular with a central cutout and is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The component features a white connector on the left side and a small component labeled 'GND' on the right side.
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 3'. The component is rectangular with a central cutout and is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The component features a white connector on the left side, a small component labeled 'GND' on the right side, and a small component labeled 'DS-BAT 2021.03.03' on the right side. The component also has a switch labeled 'OFF' and 'ON' on the left side.

Solder Board-Component View 4	 A micrograph showing a green printed circuit board (PCB) component with two solder joints. The component is labeled '120'. It is positioned next to a black scale bar with white markings. The scale bar has markings for 10, 20, 30, 40, 50, and 60 mm. The component is located between the 10 mm and 20 mm marks.
Solder Board-Component View 5	 A micrograph showing a green printed circuit board (PCB) component with two solder joints. The component is labeled '120'. It is positioned next to a black scale bar with white markings. The scale bar has markings for 10, 20, 30, 40, 50, and 60 mm. The component is located between the 10 mm and 20 mm marks.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, labeled 'Zd4', positioned on a blue textured surface. The component is oriented vertically and features a white connector on its left side. It is placed next to a black ruler with white markings, which shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The ruler is oriented horizontally, with the 0 mm mark on the left and the 100 mm mark on the right.
Solder Board-Component View 7	 A photograph of a small green printed circuit board (PCB) component, labeled 'DS-LED-2020.11.10', positioned on a blue textured surface. The component is oriented vertically and features several surface-mounted components, including LEDs (LED1, LED2, LED3, LED4, LED5, LED6) and resistors (R1, R2, R3). It is placed next to a black ruler with white markings, which shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The ruler is oriented horizontally, with the 0 mm mark on the left and the 100 mm mark on the right.
