

SILICONE TOP PAD

Thin layer of recycled silicone with debossed logo and embossed(raised) rings to assist in alignment.

Top layer will have a marble pattern created by mixing different shades of grey silicone before compressing in the mold. Each Silicone Top Pad woud have a different pattern due to the random blending of different colors.

Material:
Recycled Silicone

Color:
Mixture of black and grey shades

Elephant Recycle Logo:
20.0mm L x 17.0mm W
Debossed in center of top layer

Embossed Alignment Circles:
50.0mm Diameter
1.0mm Stoke thickness
Raised circles centered above wireless coils

PLASTIC BASE

Black plastic with round LED charging indicator. Edges of Base should have a radius added to corners to create a round/curved perimeter. Magnets will be placed between Plastic Base and Silicone Top to aid in alignment

Material:
Recycled PC+PET

Color:
Black

LED Color:
White

Dual Pad Dimensions:
196.0mm L x 110.0mm W x 13.0mm H

CABLE

Black cable with slim, low-profile TPE strain relief.

Material:
TPE

Color:
Black

Length:
2m

CERT PAD PRINT

Contains Product & Company Name, Specs, and Certification info.

Print Area Dimensions:
40.9mm W x 18.4mm H

Position:
Bottom - Positioned near the power cord and centered Vertically.

Color:
Cool Grey 10C

Serial Number:
Laser Engraving
SN:PSYYWWP100001
