**GPS Tracking in Sports Mode** 

oraimo Watch 2 has all four major satellite location services (GPS, GLONASS, Beidou, and Galileo) built into it. When you start a sports session, it automatically searches for satellite positioning services and tracks your location.

When you finish the session, the watch will sync the tracked position data to your phone. You can see the auto-generated workout map in the oraimo Health App through Preview -> Exercise -> All sports.

Getting To Know Your Smart Watch Wrist Placement

For all-day wear, your watch should usually

rest a finger's width below your wrist bone and lay flat, as you would normally wear a

Charge Your Watch

Connect the metal contacts on the charging dock to those on the back of the device, then put them on a flat surface.

Make sure you wear the watch tightly enough and it's positioned properly to monitor heart rate...

Power On/Off

Wake Up the Watch

Using The Clock And Menus

Can't connect with BT.

Restart your phone.

Can't monitor heart rate.

Connect the charging cradle to a power supply, the device's screen will light up and display the battery level.

The charging dock is not water resistant. Wipe the port, metal contacts, and the device dry before charging.

 When the watch is powered off, charge the watch or long press the home outton for 3 seconds to power it on. When the watch is turned on, press and hold the side button for 3 seconds. Choose Power Off and tap again to confirm. The watch vibrates and turns off. You can also power off from the "Settings" menu. (Settings – System Settings – Power Off)

When you're not using this product, the display is off. To wake it up: Press the side button.

 Turn your wrist towards you. This function, known as "Raise to Wake", can be turned off in Settings - Raise to wake - Raise to wake. You can also schedule when it's activated during the day.

## start, you can return to the home screen clock face. From here you can

swipe to see data about your steps, activity time, calories, heart rate, and functions like training modes, weather, message, music, etc.

1. Make sure your device supports BT 5.1. Make sure your device's software is or above iOS 11.0 or Android 6.0.

2. Restart BT and reconnect after 20 seconds.

4. Make sure your phone is not connected with other devices. Make sure oraimo Health App is running in your phone's system.

Can't find the watch in Bluetooth.

Make sure your phone's location service is enabled Make sure the watch has enough power, it's not connected with another

shone and is powered on. Also you need to keep it close to your phone. f you still cannot find it, please turn off your phone's BT function and reconnect after 20 seconds.
