

ing the Battery

SUPERVENT!
12.8V Lithium Ion battery must be fully PARTIALLY CHARGED prior to shipment
and it is recommended the battery be fully charged before first use.

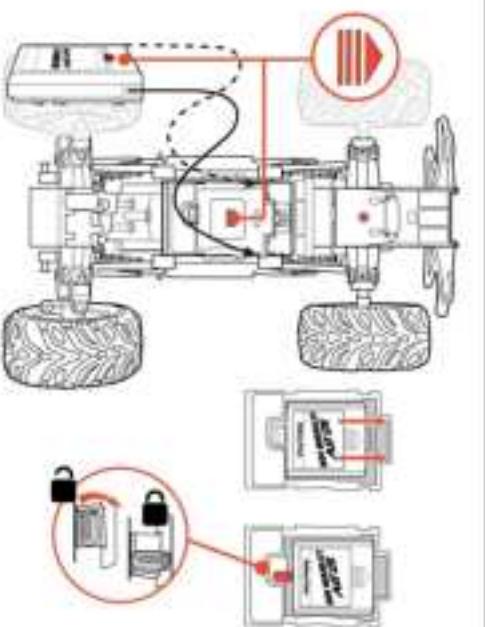

Charger into standard indoor electrical outlet. This power unit is intended to be
operated in a vertical or wall mount position.
The 12.8V rechargeable battery pack securely into the charger (as shown above), the wires
are properly matched.
Charging Light will be solid red while battery is charging. When charging is complete,
light turns green.
will last approximately 10-12 minutes depending on terrain and driving style.

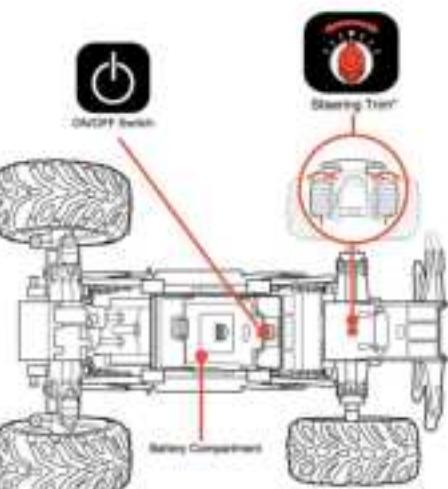

NOTE: It is normal for the battery pack to become warm after charging and/or use. Be sure to allow battery pack to cool before using or recharging. Recharging a warm battery pack will
increase the battery life.

UTION PARENTS:
Battery Charger & Battery Pack need to be periodically examined for potential hazards. Any
hazardous parts need to be repaired or replaced.

Battery Installation

Features and Functions

If vehicle pulls to the left or right during forward driving the Steering Trim may need to
be adjusted. The Steering Trim is located on bottom of chassis between the front wheels.

PER USE

SUPPORT

SUPPORT

NEW BRIGHT

ions & Care

Switch vehicle OFF
when not in use.

Brush areas where
dirt gets trapped.

Do not use chemicals
or water to clean.

Trouble Shooting

80% of all difficulties experienced with radio controlled vehicles
are due to either weak batteries or batteries that have been installed incorrectly.
When batteries become weak, the vehicle may stop immediately but may
still exhibit slow response, slow speed or erratic behavior.

Problem - Vehicle does not move or moves slowly:

- Make certain there are fresh alkaline batteries in the transmitter and that they have been installed in the correct position.
- Are the (+) and (-) markings on the alkaline batteries in the same position as the (+) and (-) markings in the Transmitter Battery Compartment?
- Has the Battery Pack been installed in the vehicle?
- Has the rechargeable Battery Pack been fully charged?
- Are the (+) and (-) markings on the Battery Pack in the same position as the (+) and (-) markings in the Battery Compartment?
- Are the metal contact tabs touching, rusty or dirty in the transmitter?
- Make certain that the vehicle ON/OFF switch is in the 'ON' position.

Problem - Vehicle moves by itself or exhibits reduced range from the transmitter:

- Make certain there is no outside radio interference in your area. The best way to test this is to take the vehicle as far away from radio towers, electrical lines or tall buildings as possible to ensure no further radio interference will occur.

Cautions

Do not recharge Battery Pack if it is hot or warm to the touch. Allow Battery Pack to cool
before recharging. Recharging a hot or warm Battery Pack will shorten the life of the Pack.
Do not recharge a Battery Pack if it appears to be damaged or leaking.

Always unplug Charger when not in use.

Always remove Battery Pack from Battery Compartment when not in use.

Do not dispose batteries in fire. Leakage, explosion and personal injury may occur.

Dispose of Rechargeable Battery Pack properly.

Do not attempt to disassemble Battery Pack or Charger.

Do not use Battery Charger for any use other than instructed in this booklet.

Only an adult should charge Batteries.

Do not attempt jumps or tricks with this vehicle.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can release radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from those into which the receiver is connected.
- Consult the dealer or an experienced technician for help.

FCC Questions

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference
received, including interference that may cause undesired operation.

CAUTION: ELECTRICALLY OPERATED PRODUCT
NOT RECOMMENDED FOR CHILDREN UNDER 8 YEARS OF AGE
AS WITH ALL ELECTRIC PRODUCTS, PRECAUTIONS SHOULD BE OBSERVED DURING HANDLING AND USE TO PREVENT SHOCK, INPUT: 120V AC 60Hz 10W, OUTPUT: 12.8V DC

NEW BRIGHT

OWNER'S MANUAL

Please read and understand all precautions prior to use.

Thank you for choosing a premium New Bright product.

Warranty
30 Day Limited Warranty

New Bright Industries warrants to the original purchaser that this product will be free of defects in materials and workmanship for Thirty (30) days from the date of purchase. To the extent of such warranty, New Bright repair or replace or refund the purchase price of use was discontinued. This warranty does not cover damage resulting from unauthorised modifications, accident, misuse or

abuse. Please note there is a deductible under this warranty that cost the full retail value but is not included in the 30 day period. For more information on how to obtain a Product Return Form, The Product Return Form contains return shipping a credit card to be issued or pre-paid and insured by the customer.

When returning a defective product, please include the product, the Product Return Form and the dated sales receipt amount of purchase. The user is responsible for all shipping and handling costs. If the product is returned to a listed sales agent, it will be included in coverage of the warranty. Please notice it is the responsibility of customers to inspect and report any damage occurring to the product.

New Bright Industries liability for defective products and consequential costs does not exceed the original purchase price of the product. In no event shall we be responsible for incidental or consequential or contingent damages, except in those states that do not allow the exclusion of

such liability.
