BTH26 ANC Noise Cancelling Headphones

**Model: BTH26
Wireless Headphones**

1 The fifth generation of Safe Volume Technology innovation and upgrade

- The first generation 85dB: refers to a single frequency point
- The second generation 85dBA (Aeq/pink noise): The spectral intensity of the entire sound, and then superimposed the A-weighting correction curve, the average value obtained
- The third generation of cochlear resonance pre-attenuation: the sound that is likely to cause hearing impairment (2kHz-4kHz sound waves) is attenuated by 5-10 decibels, effectively protecting high-frequency hearing loss while taking into account the clarity of the earphones
- The fourth generation circuit control: 85dBA volume control can be realized for any equipment
- The fifth generation decibel meter: the sound decibel level is displayed on the screen

2 Safe material

iclever has acoustic engineers serving first-line audio brands to ensure that each product meets its acoustic standards

3 Professional acoustic adjustment

4 Craftsmanship spirit, detail by detail

- foldable
- colorful lighting
- stretchable
- sturdy material
- cat ear series stickers

Power On/Off

1. Power On: In the power-off state, press and hold the MFB button for 2 seconds to power on the headphones. The headphones will play the voice prompt "Power On" and the indicator light will flash red and blue alternatively, indicating that the headphones have entered pairing mode.
2. Power Off: In the power-on state, press and hold the MFB button for 5 seconds to power off the headphones. The headphones will play the voice prompt "Power Off" and all lights will turn off, indicating that the headphones are powered off.

 	 	
DE: 1. Einschalten : Halten Sie im ausgeschalteten Zustand die MFB-Taste 2 Sekunden lang gedrückt, um den Kopfhörer einzuschalten. Es folgt die Sprachansage "Power On" des Kopfhörers. Die abwechselnd blau und rot blinkende Anzeigeluchte zeigt an, dass der Kopfhörer in den Kopplungs-Modus übergegangen ist. 2. Ausschalten : Drücken Sie im eingeschalteten Zustand die MFB-Taste und halten Sie sie 5 Sekunden lang gedrückt, um den Kopfhörer auszuschalten. Es folgt die Sprachansage "Power Off" des Kopfhörers. Alle Leuchten erlöschen und zeigen damit an, dass der Kopfhörer ausgeschaltet ist. FR: 1. Mise en marche : Lorsque l'appareil est éteint, appuyez sur le bouton multifonction et maintenez-le enfoncé pendant 2 secondes. Vous entendrez le message vocal "Power On", et le voyant lumineux clignotera alternativement en rouge et en bleu, indiquant le mode d'appairage.	ES: 1. Encendido: Estando apagado, presione y mantenga el botón multifunción durante 2 segundos. Escuchará el mensaje de voz "Power On" y la luz indicadora parpadeará en rojo y azul alternativamente, indicando el modo de emparejamiento. 2. Apagado: Estando encendido, presione y mantenga el botón multifunción durante 5 segundos. Escuchará el mensaje de voz "Power Off" y todas las luces se apagarán, lo que indica que está apagado. IT: 1. Accensione: Nello stato di spegnimento, tenere premuto il pulsante multifunzione per 2 secondi.	CN: 1. 开机: 关机状态下, 长按 2 秒 多功能键开机。耳机语音播放 "Power On", 指示灯红蓝交替闪烁, 耳机进入配对模式。 2. 关机: 开机状态下, 长按 5 秒 多功能键关机, 耳机语音播放 "Power Off", 全部灯灭, 耳机关机。

	
2. Arrêt : En état de fonctionnement, appuyez sur le bouton multifonction et maintenez-le enfoncé pendant 5 secondes. Vous entendrez le message vocal "Power Off" et tous les voyants s'éteindront, indiquant l'arrêt de l'appareil.	2. Spegnimento: Nello stato di accensione, tenere premuto il pulsante multifunzione per 5 secondi. Sentirà il messaggio vocale "Power Off" e tutte le luci saranno spente, indicando lo spegnimento.

Bluetooth Pairing

1. When first turning on the device, its indicator light turns blue for 1 second, then the Bluetooth enters the pairing state, and the red and blue lights flash alternately.
2. Open the Bluetooth on your phone and select "iClever BTH26" in the device list for Bluetooth pairing.

Note:

1. After the second power-on, the phone will automatically reconnect to the last paired Bluetooth device. If the last paired Bluetooth device is out of range, the headphones will enter pairing mode.
2. If the device exceeds the effective Bluetooth range of the headphones, it will automatically disconnect.
3. If the headphones fail to connect via Bluetooth for more than 5 minutes, it will shut down automatically.

DE:

1. Beim ersten Einschalten des Geräts leuchtet die Kontrollleuchte 1 Sekunde lang blau, dann wechselt Bluetooth in den Kopplungsstatus und die roten und blauen Lichter blinken abwechselnd.

2. Öffnen Sie die Bluetooth-Funktion auf Ihrem Handy und wählen Sie „Clever BTH26“ in der Geräteliste für die Bluetooth-Kopplung aus.

Hinweis:

1. Nach dem zweiten Einschalten verbindet sich das Telefon automatisch wieder mit dem zuletzt gekoppelten Bluetooth-Gerät. Wenn sich das zuletzt gekoppelte Bluetooth-Gerät außerhalb der Reichweite befindet, wechselt der Kopfhörer in den Kopplungsmodus.

2. Überschreitet das Gerät die effektive Bluetooth-Reichweite des Kopfhörers, wird die Verbindung automatisch getrennt.

3. Kann der Kopfhörer länger als 5 Minuten keine Bluetooth-Verbindung herstellen, schaltet er sich automatisch ab.

FR:

1. Lors de la première mise sous tension de l'appareil, son voyant devient bleu pendant 1 seconde, puis le Bluetooth entre en état d'appariage et les voyants rouge et bleu clignotent alternativement.

2. Ouvrez le Bluetooth sur votre téléphone et sélectionnez "Clever BTH26" dans la liste des appareils pour l'appariage Bluetooth.

Remarque :

1. Après le deuxième allumage, le téléphone se reconnecte automatiquement au dernier appareil Bluetooth apparié. Si le dernier appareil Bluetooth apparié est hors de portée, les écouteurs passeront en mode d'appariage.

2. Si l'appareil dépasse la portée Bluetooth effective des écouteurs, il se déconnecte automatiquement.

3. Si les écouteurs ne parviennent pas à se connecter via Bluetooth pendant plus de 5 minutes, ils s'éteignent automatiquement.

ES:

1. Cuando los auriculares estén encendidos, deslice el interruptor a la posición ON. Las luces de colores se encenderán, indicando el modo de emparejamiento Bluetooth. La luz indicadora parpadeará en rojo y azul alternativamente.

2. Abra el Bluetooth en su teléfono y selección "Clever BTH26" en la lista de dispositivos para el emparejamiento Bluetooth.

Nota:

1. Tras el segundo encendido, el teléfono se volverá a conectar automáticamente al último dispositivo Bluetooth emparejado. Si el último dispositivo Bluetooth emparejado está fuera del alcance, los auriculares entrarán en modo de emparejamiento.

2. Si el dispositivo excede el alcance efectivo de

Bluetooth de los auriculares, se desconectará automáticamente.

3. Si los auriculares no se conectan mediante Bluetooth durante más de 5 minutos, se apagarán automáticamente.

FR:

1. Quando si accende il dispositivo per la prima volta, la spia diventa blu per 1 secondo, quindi il Bluetooth entra nello stato di accoppiamento e le luci rossa e blu lampeggiano alternativamente.

2. Apri il Bluetooth sul tuo telefono e seleziona "Clever BTH26" nell'elenco dei dispositivi per l'accoppiamento Bluetooth.

Nota:

1. Dopo la seconda accensione, il telefono si riconnetterà automaticamente all'ultimo dispositivo Bluetooth abbinato. Se l'ultimo dispositivo Bluetooth abbinato è fuori portata, le cuffie entreranno in modalità di abbinamento.

2. Se il dispositivo supera la portata Bluetooth effettiva delle cuffie, si disconnetterà automaticamente.

3. Se le cuffie non riescono a connettersi tramite Bluetooth per più di 5 minuti, si spegneranno automaticamente.

BTH26--说明书 折页--240920.indd 16

2024/9/20 17:24:58

CN:

1. 在首次开机状态下，蓝色指示灯常亮 1 秒，蓝牙进入配对状态，红蓝灯交替闪烁。
2. 打开手机蓝牙，在设备列表中，查找并选择“iClever BT H26”蓝牙配对名称进行蓝牙配对连接，语音播放“Connected”。

备注:

1. 第二次开机之后，手机会默认回连上次最后连接的蓝牙耳机；若上次最后连接的蓝牙耳机不在蓝牙有效范围，耳机回连失败后，会自动进入配对状态。
2. 设备超出耳机有效蓝牙距离，会自动断连。
3. 耳机超过 5 分钟未蓝牙连接成功，会进入自动关机状态。

Wired Connection

Insert the provided 3.5mm audio cable, with one end into the 3.5mm audio interface of the headphones and the other end into a device.

DE:

Stecken Sie das mitgelieferte 3,5-mm-Audiokabel mit dem einen Ende in die 3,5-mm-Audioschnittstelle des Kopfhörers und mit dem anderen Ende in ein Gerät, das eine 3,5-mm-Schnittstelle unterstützt, z. B. ein Tablet, Computer, Laptop oder ein Smartphone.

FR:

Insérez le câble audio de 3,5 mm fourni, avec une extrémité dans l'interface audio de 3,5 mm du casque et l'autre extrémité dans un appareil compatible avec une interface de 3,5 mm, tel qu'une tablette, un ordinateur, un ordinateur portable ou un smartphone.

53

Inserte el cable de audio de 3,5 mm proporcionado, con un extremo en la interfaz de audio de 3,5 mm de los auriculares y el otro en un dispositivo que admita una interfaz de 3,5 mm, como una tablet, ordenador, portátil o teléfono inteligente.

三

Inserire il cavo audio da 3,5 mm fornito, con un'estremità nell'interfaccia audio da 3,5 mm delle cuffie e l'altra estremità in un dispositivo che supporta un'interfaccia da 3,5 mm, come un tablet, un computer, un laptop o uno smartphone.

5

取出附赠的 3.5mm 音频线，一端接口插入耳机的 3.5mm 音频接口，一端接口插入支持 3.5mm 接口的平板、电脑、笔记本、手机等音频播放设备。

Noise Reduction

When powering on the headphones, its noise reduction is off by default. Short press the "ANC" button to enter Noise Cancellation mode. Short press the "ANC" button again to turn off Noise

Cancellation.

Note: Noise reduction is not supported when using a wired connection.

DE:

Beim Einschalten des Kopfhörers ist die Geräuschreduzierung standardmäßig ausgeschaltet.

Drücken Sie kurz die „ANC“-Taste, um den Geräuschunterdrückungsmodus zu aktivieren. Drücken Sie die „ANC“-Taste erneut, um die Geräuschunterdrückung zu deaktivieren.

Hinweis: Die Geräuschreduzierung wird nicht bei einer Kabelverbindung unterstützt.

FR:

Lorsque le casque est allumé, la réduction du bruit est désactivée par défaut. Appuyez brièvement sur le bouton "ANC" pour activer le mode Réduction de Bruit. Appuyez de nouveau brièvement sur le bouton "ANC" pour désactiver la Réduction de Bruit.

Remarque : la réduction du bruit n'est pas prise en charge lors de l'utilisation d'une connexion câblée.

53

Cuando enciende los auriculares, la reducción de ruido estará desactivada por defecto. Presione brevemente el botón "ANC" para activar el modo de cancelación de ruido. Vuelva a presionar brevemente el botón "ANC" para desactivar la cancelación de ruido.

Nota: La reducción de ruido no es compatible cuando se utiliza una conexión por cable.

Quando si accendono le cuffie, la sua riduzione del rumore è disattivata per impostazione predefinita. Premi brevemente il pulsante "ANC" per attivare la modalità di Cancellazione del Rumore. Premi di nuovo brevemente il pulsante "ANC" per disattivare la Cancellazione del Rumore.

Nota: la riduzione del rumore non è supportata quando si utilizza una connessione cablata.

CN:
耳机默认认为降噪关闭状态,短按“ANC”降噪按键,进入“降噪”模式;再次短按“ANC”降噪按键,进入降噪关闭模式;

备注：耳机使用有线连接时，不支持降噪功能。

Volume Up:

Press the "+" button

Press the "-" button

Press and hold the volume + button for 2s

Press and hold the volume - button for 2s

Press the MEB button.

Answer/End Call:
