Warranty Card:

- If not specially marked, users can choose to return the product due to its own quality problems (not product software faults) from the date of purchase. The return period is 7 days; the replacement period is 15 days; and the warranty period is 12 months.
- If the user encounters product quality problems, he/she may request the service department designated by our company to provide warranty services. If delivery is required, the user shall bear the related costs of delivery by himself/herself.
- When the user requests the warranty service, he/she shall actively provide the valid warranty service certificate or invoice;
- Additional services beyond the warranty shall be charged in accordance with relevant regulations, and the warranty period of the products shall be 3 months from the date of picking up or delivery;
- The warranty services provided by our company is limited to products with quality problems, and does not include compensation for buyers' loss of interests, loss caused by accidents and any other indirect or direct loss;
- The user should take the initiative to buy in the seller place according to the requirements to fill in necessary information in the warranty card.

FCC

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
