

## **LABEL LOCATION:**

please find attached the label location information.  
Please note that the label is separated in 2 parts:

Part 1 (file label\_layout2-UL+CE.jpg):

This label will be located as mentioned in the attached file

Part 2 (file: label\_layout1-FCC+CAN.jpg, containing the FCC ID):

This label will be placed on the USB connector cable, close to the device. I asked Chris if this possible some time ago and he mentioned that there is no

problem as long as the cable is an integral part of the product and not removable. This is the case for the device.
