May 3, 2005

Federal Communications Commission Equipment Approval Services 7435 Oakland Mills Road Columbia, MD 21046 Attn: Stan Lyles

SUBJECT: FCC ID: A3LSCHI730

731 Confirmation No.: EA562274 Correspondence Reference No.: 28742 Request for Tech. Info.: 04/05/05

Dear Mr. Lyles:

Submitted herewith is an amendment provided in response to the request for technical information dated April 5, 2005.

1. A new FCC ID is required only if the RF power increase is due to a design change. There has been no design change in this Bluetooth transmitter. The FCC normally allows manufacturing tolerance for RF power output of +/- 2dB on Part 15C transmitters.

We trust this information is sufficient to resolve the FCC questions regarding this application. If you have any further questions, please do not hesitate to contact us.

Sincerely,

Steve Kim

General Manager
