Words from The Product Designer

Hey friends,
I'm Mason, and I designed this product because I struggled with putting my baby to sleep too. Now, we are thrilled to introduce our Smart Nursery Night Light—a multifunctional device that combines a sleep sound machine, colorful night light, video monitoring, and an alarm clock, all for the purpose of baby's better sleeping habits. This smart device meets your family's needs, providing calming illumination, music and playful interaction for your little one.

Key Features:

Baby Monitor: Monitor your baby's sleep and communicate in real time.

Custom Schedules: Set auto on/off timers to help build baby's healthy rest habits.

White Noises & Lullabies: Lull your baby to sleep with 46 white noises like white noise, rain, ocean waves, and classic lullabies, brahms.

Cry Detection: Get alerts on your phone when your baby cries, triggering soothing music and comforting lights.

Playful Interaction: Engage in fun games that change light colors with a simple tap.

Bluetooth Connection: Connect easily with your devices to play favorite music.

Touch Control: Effortlessly control playback and volume with simple touch controls or the app.

Smart Control: Use the app or voice commands via Amazon Alexa.

We hope the Smart Nursery Night Light enhances your baby's sleep experience while bringing peace of mind to your parenting journey!

Mason
Founder & CEO of Glocusent

Installing Your Device

Device Power On:

1. Please plug in this device using a DC 5V 2A power supply and press the power button to turn it on.

2. The device is not connected to the network, but you can still play songs from the TF card.

Pairing Your Device with the Glo Sleep App

What You Need:

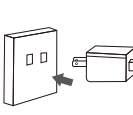

- Supports both 2.4GHz and 5GHz Wi-Fi routers.
- Ensure that the device's WiFi setting in the Glo Sleep App matches your smartphone's network.

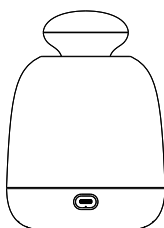

1. Download the Glo Sleep App from the App Store (iOS) or Google Play (Android).

2. Turn on the Bluetooth on your smartphone.

3. Open the app, complete account registration, tap the "+" icon in the top right corner, and search for "Baby Light N11."

4. Tap the device icon and follow the on-screen instructions to complete pairing.

FAQ

1. Cannot connect the device to Glo Sleep App.

- Ensure the device is powered on.
- Check if Bluetooth is enabled on your smartphone or try connecting with another smartphone.
- When connecting for the first time, ensure your smartphone is close to the device.
- If you are still experiencing connection issues, delete the device from the "Set" - "Device Management" page in the app. reconnect the App, following the previously provided instructions.

2. Why can't I link my account if the device is already linked to another account?

- Most electronic devices on the market can only be linked to one account at a time due to security concerns, data consistency, and specific regulatory requirements in certain regions or countries, which mandate that devices be associated with a single user account.
- However, we offer a guest mode that allows other users to log in and view live streams. This mode provides temporary access to select features without altering the primary account's data or settings.

3. How do I invite other accounts to log in and access the camera on my device?

- In the video view, click the "Invite" button on the right to enter the invitation page. Enter the invitee's account ID and click "Invite".
- Once the invitee logs into the application, they will be able to see the device's online status and access the camera.

4. How do I access the "New User Video Tutorial" and Quick Start Guide?

- Go to "Settings" and select "Video Tutorial." From there, you can watch the video tutorials and view the Quick Start Guide.

10

5. If you are unable to receive the email verification code:

- Check your spam folder, as it may have been incorrectly marked as spam. If you still do not receive the code after multiple attempts, email us at service@glocusent.com with your device ID for assistance.
- If you are registering for an account, try using a different email address.

6. How to enable Bluetooth on your smartphone:

- Open your smartphone's settings, locate the Bluetooth option, and toggle the switch to turn it on.

7. The device lost connection.

- Ensure the device is powered on.
- Shorten the distance between the device and the router to less than 50 inches, then reconnect.
- If you're still experiencing a connection error, delete the connected device from the "Set" - "Device Management" page on the app. reconnect the App, following the instructions provided previously.

8. Cannot pair or connect with Alexa.

- Ensure the stability of the Wi-Fi connection.
- If you're still experiencing a connection error, Follow the instructions on the "Tool" - "Smart Voice Assistant" screen.

9. Can multiple users control the same device?

- Each device can only be controlled by one account.
- If multiple users want to control the same device, they must use the same account.
- Family members can be invited to log in and view the live stream at the same time.

11

10. To switch your device to a new WiFi network

Step 1: Press and hold the Bluetooth button on the bottom of the device for 4 seconds to enter WiFi reconfiguration mode. Once you hear the device prompt, complete the steps in the app.

Step 2: In the Glo Sleep App, go to "Set" - "Device Management" page. Select the device you want to switch WiFi networks for, then tap "WiFi Settings". Follow the provided instructions to reconnect the device.

11. Can multiple users control the same device?

- Each device can only be controlled by one account.
- If multiple users want to control the same device, they must use the same account.
- Family members can be invited to log in and view the live stream at the same time.

12. How to unbind your device?

Step 1: Open the Glo Sleep App, go to the "Settings" page, click on the "Device Management" menu, and enter the device management list.

Step 2: In the list, select and click on the name of the device you want to unbind. Enter the settings page of that device, click the "Delete Device" button at the bottom of the page to unbind the device.

12

13. To switch your device to a new WiFi network

Step 1: Press and hold the Bluetooth button on the bottom of the device for 4 seconds to enter WiFi reconfiguration mode. Once you hear the device prompt, complete the steps in the app.

Step 2: In the Glo Sleep App, go to "Set" - "Device Management" page. Select the device you want to switch WiFi networks for, then tap "WiFi Settings". Follow the provided instructions to reconnect the device.

14. To control your baby light via Alexa:

Step 1: Add your Alexa speaker through the Alexa app.

Step 2: In the Alexa app, go to "More" and select "Skills & Games". Search for and enable the Glocusent Baby Light skill.

Step 3: When successful, log into your Glo Sleep app account and authorize Alexa to connect with your baby light.

Step 4: Use your Alexa speaker with a custom wake word followed by "open baby light". You can then use the following phrases to control your baby light.

15. Does purchasing an extended warranty service incur additional costs?

- No, the extended warranty service is free. You can register an account on our website (www.glocusent.com) to extend the warranty to 36 months. We recommend registering early to enjoy extra benefits.

16. How long are in-app messages retained?

- System messages are retained for up to 7 days and will be automatically deleted afterward.

FCC Statm

FCC Certification Info

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference;
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance

20cm between the radiator & your body.

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. At Glocusent, we refer to three core principles: glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that glory.

Focus: Our team at Glocusent is focused on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: Moments are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
