

User Manual

Magnetic Charging Cable

Model: GN373B

Package Contents

- 1 x Charging Cable
- 1 x User Manual
- 1 x After-sale Card

Specifications

Interface	1 x USB-A
Cable Length	1m/3.3ft
Input	5V/1A (Max)
Output	2.5W (Max)

Use Guides

1. Connect to Power Adapter
2. Charge Your Apple Watch

Attentions

1. To ensure the best performance of charging, please tear out the protector on the module before charging.
2. Please use the original or MFi certified adapter for standard charging.
3. Battery icon will display on the screen of Apple Watch to indicate charging status.
4. Please note that the cable cannot fit in normal Apple Watch charging dock as the charging module is bigger than the original one.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
