Status indicator

| Instruction   | LED status                                                       | Voice prompts |
|---------------|------------------------------------------------------------------|---------------|
| Power on      | Stay white about two seconds                                     | Power on      |
| Power off     | Stay red about two seconds                                       | Power off     |
| Standby       | Blink white once every 5 seconds                                 | /             |
| Pairing       | Red and white alternately flashing                               | Pairing       |
| Incoming call | White light flashing                                             | Ringtone      |
| Battery low   | Blink red                                                        | Battery low   |
| Charging      | Stays on red while charging / Stays on white after fully charged |               |

Volume up/down

Press the volume “+” to turn volume up Press the volume “-” to turn volume down

Power on

Press and hold Multifunction button for about 3 seconds. The earphone says “power on” and the white LED light stays on for 2 seconds

Power off

Press and hold Multifunction button for about 5 seconds. The earphone says “power off” and the red LED light stays on for 2 seconds

Tips: When the distance between the earphone and phone is beyond effective range, earphone disconnects with phone. Earphone will power off automatically once no active for 10 minutes.

Pairing

Pair one phone

Note: When the earphone and phone have been paired once, they will automatically connect when the earphone is on and Bluetooth is activated on the phone.

1.Make sure the earphone is turned off and within 1 meter of your phone, press and hold the Multifunction button until the LED indicator flashes red and white alternately (About 5 seconds), then release Multifunction button.  
2.Activate Bluetooth on your phone (See below for more details).

iPhone

a.On your phone, open the Settings menu.  
b.Select Bluetooth. If Bluetooth is off, turn it on.  
The iPhone will search for new devices automatically.

Android phone

a.On your phone, open the Settings menu.  
b.Select Bluetooth (For old Android phone, Bluetooth is found in the Wireless & Networks). If Bluetooth is off, turn it on. Select Search for Devices if your phone does not automatically search for new devices.

Windows Phone

a.On your phone, open the Settings menu.  
b.Select Bluetooth. If Bluetooth is off, turn it on.  
The Phone will search for new devices automatically.

3. Select "JPRIDE ANC-510". If your phone asks, enter 0000 (four zeros) for the passcode or accept the connection. The LED indicator stops flashing red and white once successfully paired, you hear "Connection successful". Some phone list an option to "Play through earphone", select to use the earphones.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help.The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
