Re: Request for Change of Identification , FCC ID: PD97265D2

Date: June 28, 2015

To Whom It May Concern:

This letter is a request to apply for change in identification as specified under 47CFR2.933 of the FCC rules. The request applies to Intel 802.11abgnac + BT M.2 module, FCC ID: PD97265D2 (original grant on 7/25/2014).

FCC ID: PD93165D2 is the new requested ID. Hardware is electrically and mechanically identical. The only differences will be in firmware where some MIMO high data rates will be turned off under the new transmitter ID. All test results and supporting documentation previously submitted under the original filing still applies to this version.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett", written over a horizontal line.

Steven C. Hackett
Wireless Product Regulatory Engineer
