HQ20

This product supports hearing conservation and earphone monitoring (speech perception), which can be set through the 1MORE APP.
Hearing conservation:
Low volume: Maximum volume does not exceed 74 decibels, indicated by a single tone after each volume up.
Medium volume: Maximum volume does not exceed 85 decibels, indicated by a yellow light flashing for 2 seconds; automatically switches to low volume after 2 hours of continuous use.
High volume: Maximum volume does not exceed 94 decibels, indicated by a red light flashing for 2 seconds; automatically switches to medium volume after 0.5 hours of listening.

Note:
1) In hearing conservation mode, the earphones limit high volume usage to no more than 0.5 hours and medium volume usage to no more than 2 hours per 24 hours. This is a safe listening time recommended by the World Health Organization and recommended by the World Health Organization. You can also adjust the volume manually switching volume levels.
2) Due to the limit of 74 dB, 85 dB and maximum volume usage, the volume will automatically decrease to the next lower level when the limit is reached.
Earphone monitoring (Speech perception)
Turn on earphone monitoring, which allowing you to experience different decibel levels of speech perception effects.

Extra Functions:
1. Ongoing: Press and hold "+" and "-" buttons for 5 seconds, the headphones will switch to accessory mode.
2. Security pairing: If the pairing phone has Bluetooth prior to 3.0, please use the default security code "0000".
