

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. On the left is a black plastic housing with a circular opening. To its right is a small, circular, gold-colored component with a QR code. A black ruler with white markings is placed below the components for scale.
EUT Housing and Board View 2	 A photograph showing the internal components of an EUT housing from a different angle. On the left is a black plastic housing with a green circuit board visible inside. To its right is a black plastic housing with a circular opening. A black ruler with white markings is placed below the components for scale.

EUT Housing and Board View 3	 A photograph showing the back of a black, oval-shaped electronic unit (EUT housing). The unit is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The unit's internal components, including a circular copper-colored coil and some electronic components, are visible through a transparent window.
Solder Board-Component View 1	 A photograph showing the underside of a small, rectangular printed circuit board (PCB) component. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component features various electronic components, including a large black integrated circuit (IC) and several smaller components. Two wires, one red and one black, are soldered to the component.

Solder Board-Component View 2	 A photograph of a small, dark, rectangular component with a grid of gold-colored solder points. It is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 15 mm wide and 10 mm high. A small black wire is attached to the top of the component.
Solder Board-Component View 3	 A photograph of a green, semi-circular printed circuit board (PCB) component. It features a USB-A connector at the bottom. The PCB has various electronic components, including a microcontroller and several capacitors. Text on the PCB includes "WPC15-1TXNB", "2023.2.20", and "REV00". It is positioned next to a black ruler with white markings, showing measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 40 mm wide and 20 mm high.

Solder Board-Component View 4	 A photograph showing a green, semi-circular printed circuit board (PCB) component. The component is positioned on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale from 0 to 80 mm. The PCB has several small, rectangular components soldered onto its surface.
Antenna View	Coil Antenna  A photograph of a cylindrical antenna component. A red rectangular box highlights the central part of the antenna, which contains a copper-colored spiral coil. A red line points from the text label 'Coil Antenna' to this highlighted area. The component is placed on a blue textured surface next to a black L-shaped ruler, similar to the one in the first image, with the horizontal scale from 0 to 100 mm and the vertical scale from 0 to 100 mm.
