A photograph of a green printed circuit board (PCB) with various electronic components. The board is shown next to a ruler for scale. Key components include a microcontroller, memory chips, and connectors. The board is labeled with "RoHS", "CE", "FCC", and "RECYCLED". The text "20-401 Rev. C" and "M002 1A-1A100" is also visible. The board is shown next to a ruler for scale.

A photograph of the internal components of a laptop, showing the battery, hard drive, and various cables. A ruler is placed along the top edge for scale. The components are labeled: BATT (Battery), HDD (Hard Drive), M/B (Motherboard), and I/O PCB (Input/Output Printed Circuit Board). The battery is a large, rectangular, orange-colored unit. The hard drive is a smaller, rectangular, orange-colored unit. The motherboard is a large, silver-colored unit. The I/O PCB is a small, rectangular, orange-colored unit. Various cables and connectors are visible, including a green SATA-to-USB adapter. The laptop is placed on a light blue surface.
